With the Compliments of

M'DOWALL, STEVEN, & Co. LIMITED.

THE NUMBERS AND DESCRIPTION

HAVING BEEN RE-ARRANGED, ALL FORMER

ILLUSTRATED CATALOGUES & PRICE LISTS

OF

CASTINGS CONTAINED IN THIS SECTION

ARE WITHDRAWN.

SECTION IV.

It is now over half a century since our Works were established; since then, we have issued several editions of Illustrated Catalogues of our manufacture, complete in one volume, but such has been the increase of our designs and patterns in recent years, in all the departments of our Work, that it has become a necessity to issue our New Edition in six sections.

SECTION 1, OPEN AND CLOSE FIRE KITCHEN RANGES, HOT PLATES AND COOKING APPARATUS.

SECTION 2, REGISTER GRATES, MANTEL REGISTER GRATES, CHIMNEY PIECES, STOVES, GILL, HOT AIR, OPEN FIRE, LAUNDRY, &c.

SECTION 3, RAIN-WATER, PLUMBING, AND SANITARY CASTINGS.

SECTION 4, ORNAMENTAL CASTINGS AND CONSTRUCTIONAL WORK.

SECTION 5, STABLE AND COW-HOUSE FITTINGS.

SECTION 6, HOT WATER APPLIANCES.

At the beginning of each part of Section 4, will be found printed information, and guidance to assist when specifying, or ordering goods. In order that these directions may be known, attention is called to them in a foot-note on each page.

We are constantly adding to our Designs, loose drawings of which may be had on application. Designs and Specifications of Architects, Engineers, and others faithfully carried into effect.

The Examples illustrated in this Section are Specimens of some of the work that have been supplied by us.

We give names of a few of the places where they have been erected for reference.

SECTION IV.

BAND STANDS

PLAN

No. 1

ERECTED AT WOLVERHAMPTON, &c.

From D. GODFREY,
15, Lupus Street,
Pimlico.

To MESSRS. STEVEN BROS. & Co.,
4, Upper Thames Street, E.C.

Having been requested to state my opinion of the Band Stand erected in the Quarries at Shrewsbury, I consider it well adapted to its purpose, its acoustic properties being excellent.

DAN GODFREY

Band Master,

LYONSADDER GUARDS

From SQUIRE GRAHAM,
Band Master,
Falmouth.

To STEVEN BROS. & Co.,
London.

I have much pleasure in testifying as to the new Band Stand erected here in the Victoria Park.
The stand is admirably adapted in every way for a Band, and the acoustic properties are certainly perfect.
I consider in every way a complete structure.

SQUIRE GRAHAM

Band Master

14, A. A. STREET,
LAKE ROAD, LONDON,
September 23rd, 1884

The New Band Stand which has been built by your firm in Victoria Park, Portsmouth, is the best I have ever seen, it is a noble, handsome piece of workmanship. The vibration is all that could be desired.

To STEVEN BROS. & Co.,
London.

H. ALLEN,

Band Master,

at Hants Artillery Volunteers.

TERMINALS, WEATHER VANES, &c.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. State N^{os} and say whether they are wanted 2 ways, 4 ways, or otherwise.
2. Whether bats for stone, screws, or snugs for wood.
3. When bolts with nuts and washers are required, give thickness, and overall length.
4. Bats for stone are included in the List Prices, but screws and bolts are *charged extra*, according to size.
5. The following Variations can be made at little or no cost, viz.: -One set of Cardinal Points and Letters can be substituted for another, and where none are shown they can be added. Many Terminals can be made into Weather Vanes, by adding Vanes and Cardinal Points. Nearly all can be shortened and lengthened to order.
6. Alterations are *charged extra*, for which special quotations can be given.

ALL PAINTED ONE COAT; GILDING, ETC., CHARGED EXTRA.

FOR INDEX TO TERMINALS, WEATHER VANES, &c., SEE NEXT PAGE.

NOTE.— LUGS CAST ON WHEN NOT OTHERWISE ADVISED

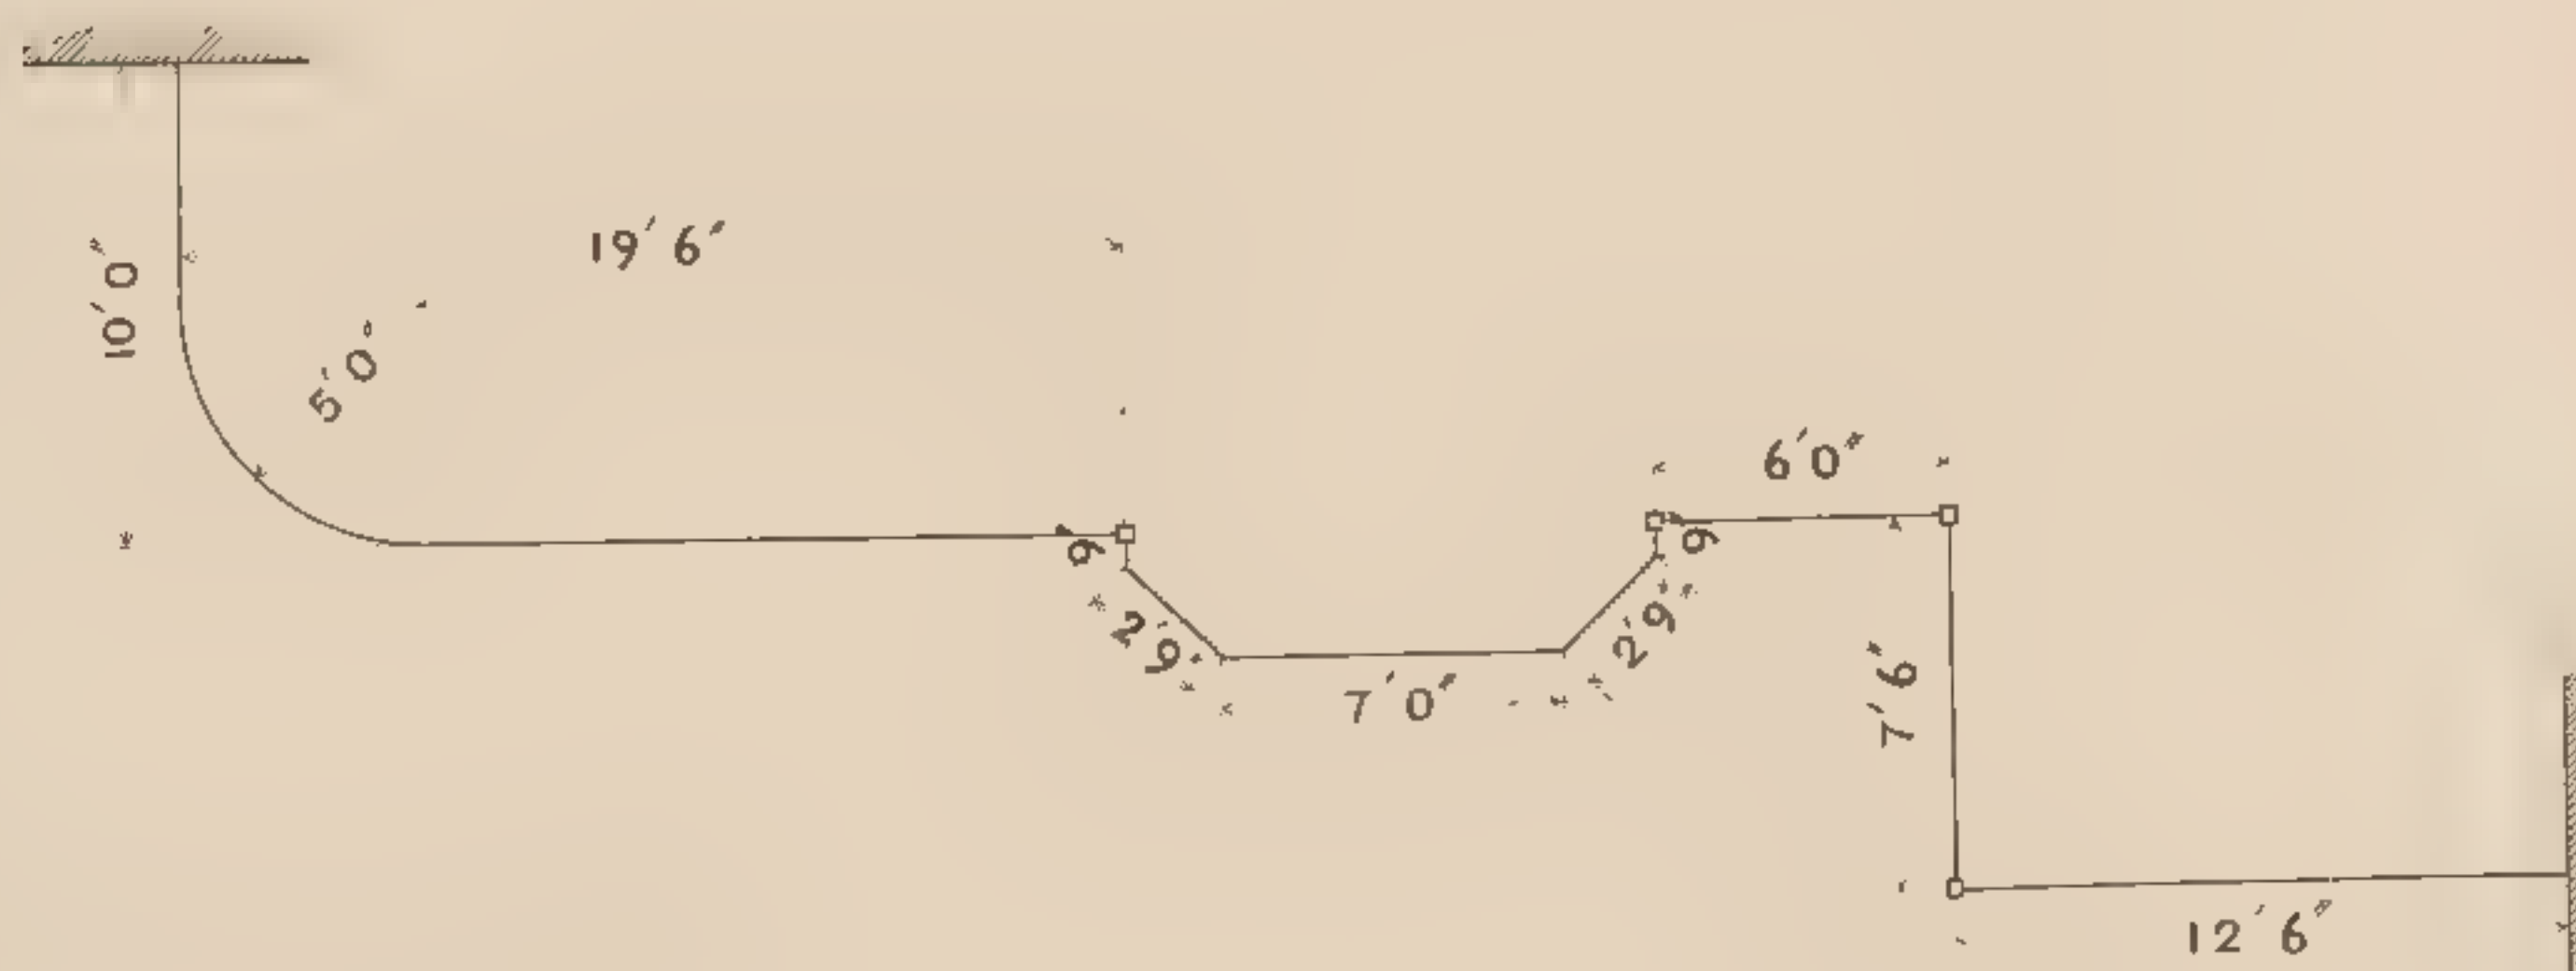

RAILINGS, CRESTINGS, &c.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. The Railings and Crestings are nearly all shown with bats for stone, and are all supplied in that way unless otherwise advised; but the mode of fixing should be stated whether for stone, wood, or otherwise.
2. Where Railings are shown with Handrail, it should be stated whether they are wanted with or without such. (See Price List for difference of Prices.) Prices are given both ways, so that Customers may have the option of providing a Wrought Iron or Wooden Handrail themselves. When not advised, will be supplied as shown. Quotations given for Wrought Iron or Wooden Handrails.
3. The lengths of Panels in which the different designs are cast being plainly figured, thus enables Customers to know how many Panels will be required to make up a given stretch.

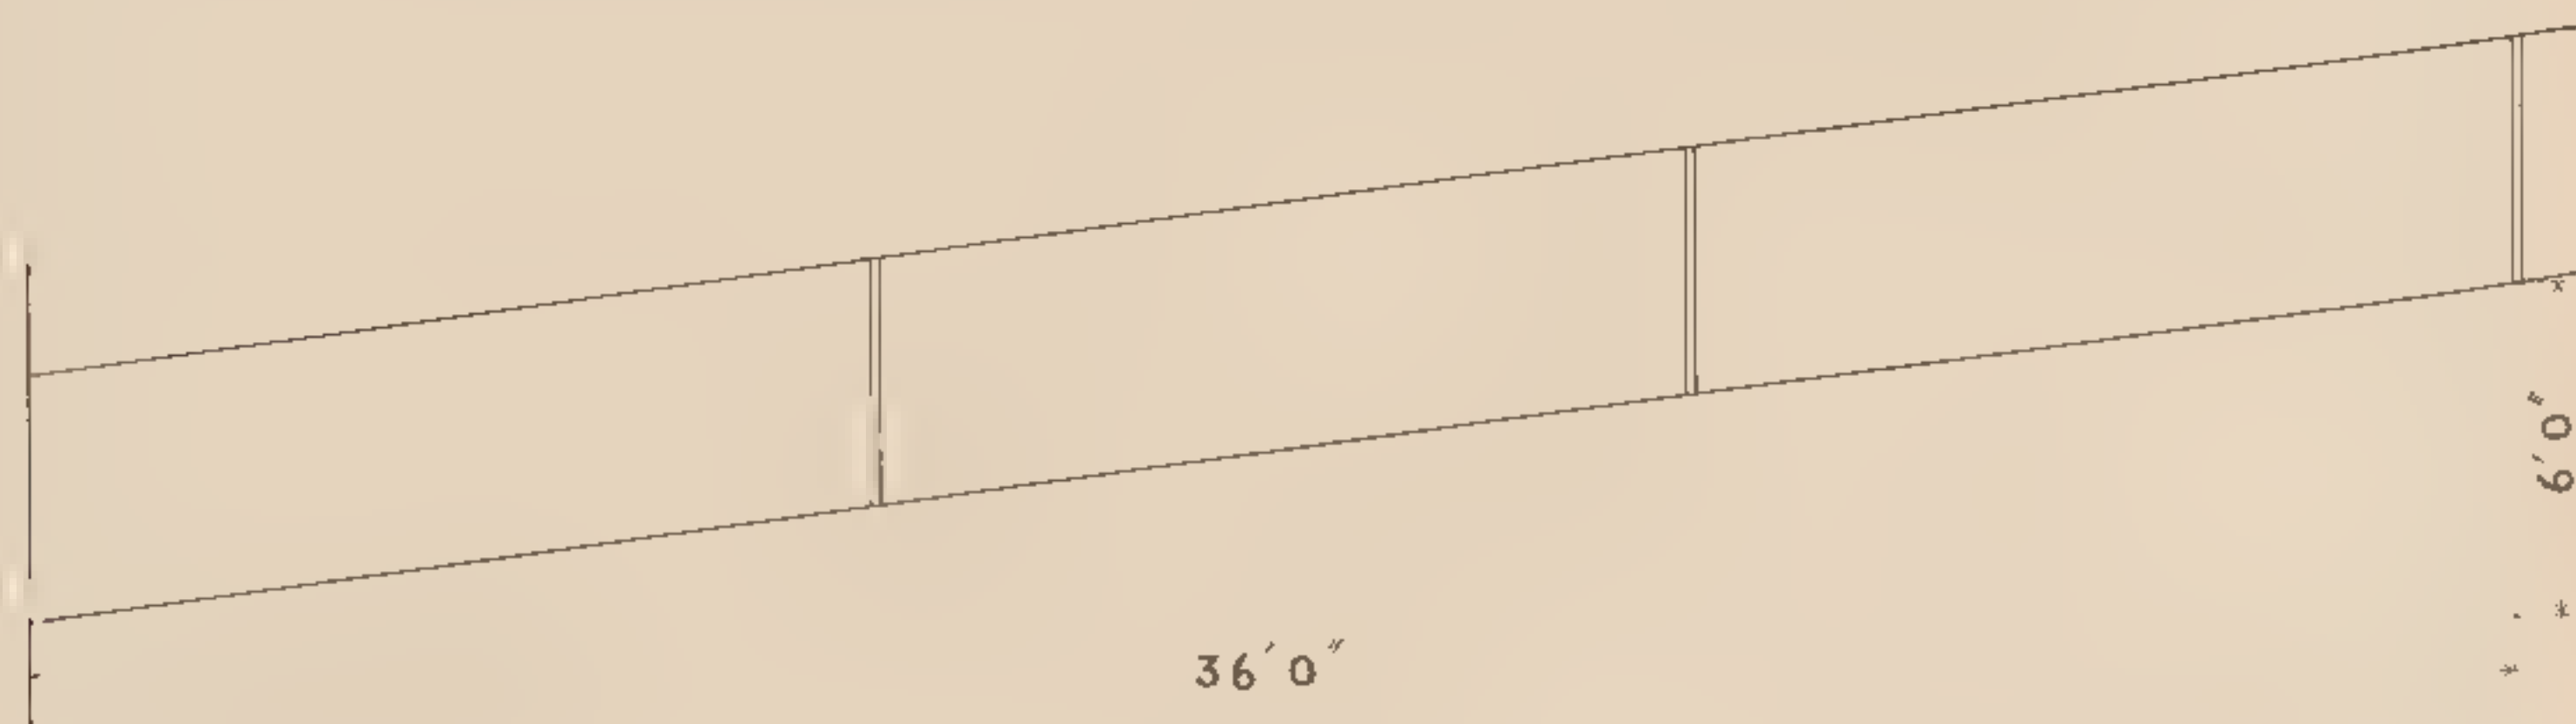

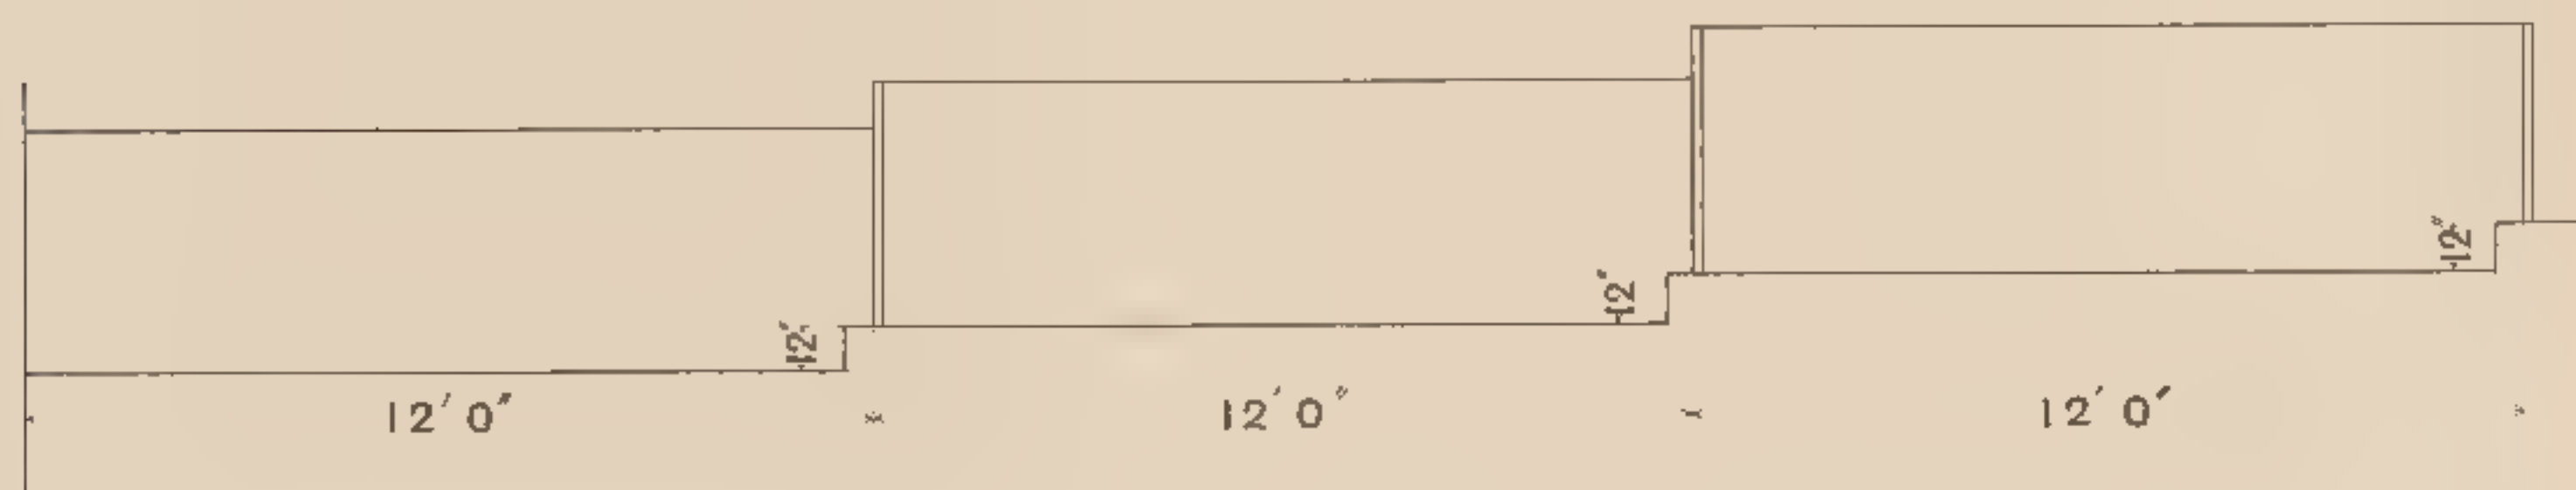

ALL PAINTED ONE COAT; GILDING, ETC., CHARGED EXTRA.

4. In sending enquiries for price or orders for sets, give measurements from wall to wall, wall to centre of Railing or Standard at returns, and from centre to centre For example—

Also state whether there is any incline in the wall, and the amount per foot or yard.

If circled or curved give templet or radius for same.

5. CHARGES IN ADDITION TO LIST PRICES.

Gilding and extra painting.

Short lengths same as full lengths.

Fitting to drawings.

Special modes of fixing.

Circle and raked railing.

Stays where not shown.

Fixing at site.

For each of the foregoing, quotations can be given on receipt of particulars.

6. For Gates and Standards to suit Railings, see corresponding Nos. in Gate subsection, where height can be noted for building parapet wall, and thus save the expense of special made Gates.

7. For further particulars with reference to Gates and Standards, see Page 1461.

FOR INDEX TO RAILINGS, CRESTINGS, &c.,

SEE NEXT PAGE.

WALL COPING.

1391

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. State whether plain as illustrated, or prepared for Railing.
2. Prices given are for Plain Coping as shown. If prepared to receive bats of Railing, *charged extra*,

Short lengths charged as full.

HAND-RAILS, COPE-RAILS, & CHEVAUX-DE-FRISE.

State Nos. and mode of fixing.

RAILING BARS.

State if sizes are overall, including sufficient for fixing.

Give Diameter, Section, &c., where more than one such are shown.

STANDARD HEADS.

Supplied without fixing as shown. If wanted otherwise, give particulars, whether for pins, screwing, coring, &c., which are *charged extra* to Price List.

RAILING BAR HUSKS AND SOCKETS.

Give diameter of bar they are to suit.

Bevels, if not as shown, *charged extra*.

STAYS, AND RAILING AND GATE STANDARDS.

Supplied as shown, unless otherwise advised.

Special modes of fixing, screws or other alterations *charged extra*.

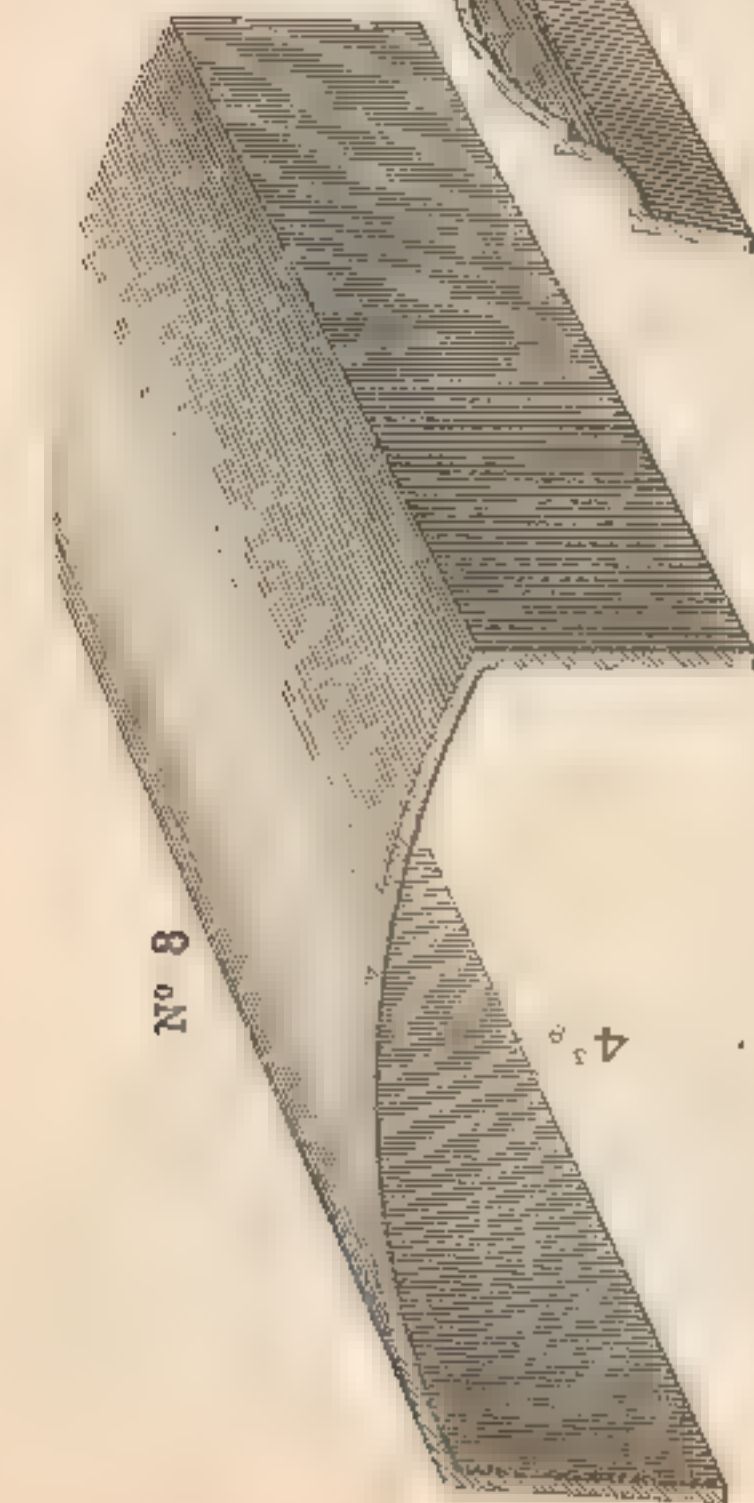

Where there are cores for Rods, fixing for Gates, etc., give full particulars.

ALL PAINTED ONE COAT; GILDING, ETC., CHARGED EXTRA.

FOR INDEX TO RAILING BARS AND STANDARD HEADS, SEE PAGE 1397.

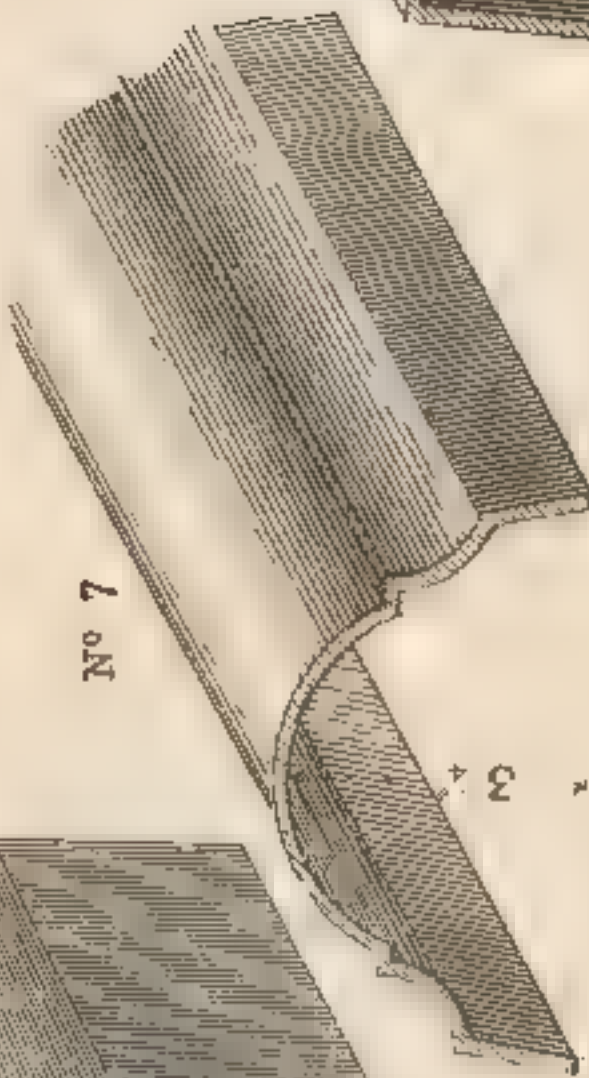

FOR INDEX TO STAYS, AND RAILING AND GATE STANDARDS, SEE PAGES 1419-1420.

GATES AND STANDARDS.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. All Gates and Standards are supplied as shown when not otherwise ordered.
2. All Standards can be supplied with stays, but *charged extra* where not shown.
On Gate Standards of 4" dia. and under, that are not shown with stays, one bat to fix into end of parapet wall, is cast on without extra charge.
3. When Gates are ordered without Standards, the kind of piers are to be stated, how to be fixed to same, whether with bolt carried through or batted in.

Give the width between the bases, also between bodies, thus

This allows for hanging iron and locking boxes being made the proper dimensions.

4. There are many of the Railings shown without Gates; for any of these we can make up Gates to match. When such are wanted (along with details stated in paragraph 3), give the height of parapet wall for Railing, so that top of Gate may be made to line with top of Railing.

For further particulars with reference to Railings, see Pages 1153-1155.

5. When the Standards shown with Gates are considered too plain or too costly, any of the others of a corresponding height can be supplied.

ALL PAINTED ONE COAT; GILDING, ETC., CHARGED EXTRA.

FOR INDEX TO GATES, SEE NEXT PAGE.

FOR INDEX TO STAYS, AND RAILING AND GATE STANDARDS, SEE PAGES 1419-1420.

NEWELS AND BALUSTERS.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. Newels and Balusters are nearly all shown with bats in bottom, but no provision at top for fixing, and are thus supplied unless otherwise ordered.

Pins are cast in top without extra charge.

All screws for fixing or other alterations *charged extra*.

2. For Balusters with caulking or plates at back for fixing to side of step, state for which hand when ascending stair.

3. Balusters can be made to any level to order.

STRAIGHT AND SPIRAL STAIR METAL.

1. State Nos., Height of Step, and Diameter.
2. State Hand of Rail when ascending.

PANELS.

1. Panels are shown without fixing, and supplied in that way if not otherwise advised. Lugs, Bats, Drilling, and other fixing *charged extra*.
2. When ordering state Sizes as well as Nos.
3. Borders where not shown can be had at ends or all round to order.
4. Many of these Panels can be altered to suit other openings different from the sizes given, at small extra cost.

ALL GOODS PAINTED ONE COAT; GILDING, ETC., CHARGED EXTRA.

FOR INDEX TO NEWELS AND BALUSTERS, SEE NEXT PAGE.

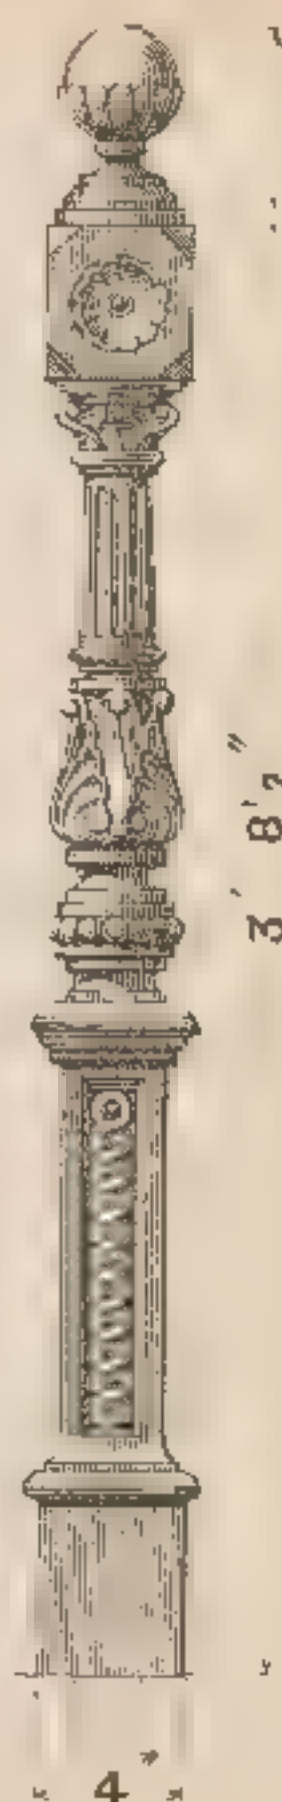

FOR INDEX TO PANELS, SEE PAGES 1647-1648.

INDEX TO NEWELS AND BALUSTERS.

G R A T I N G S.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

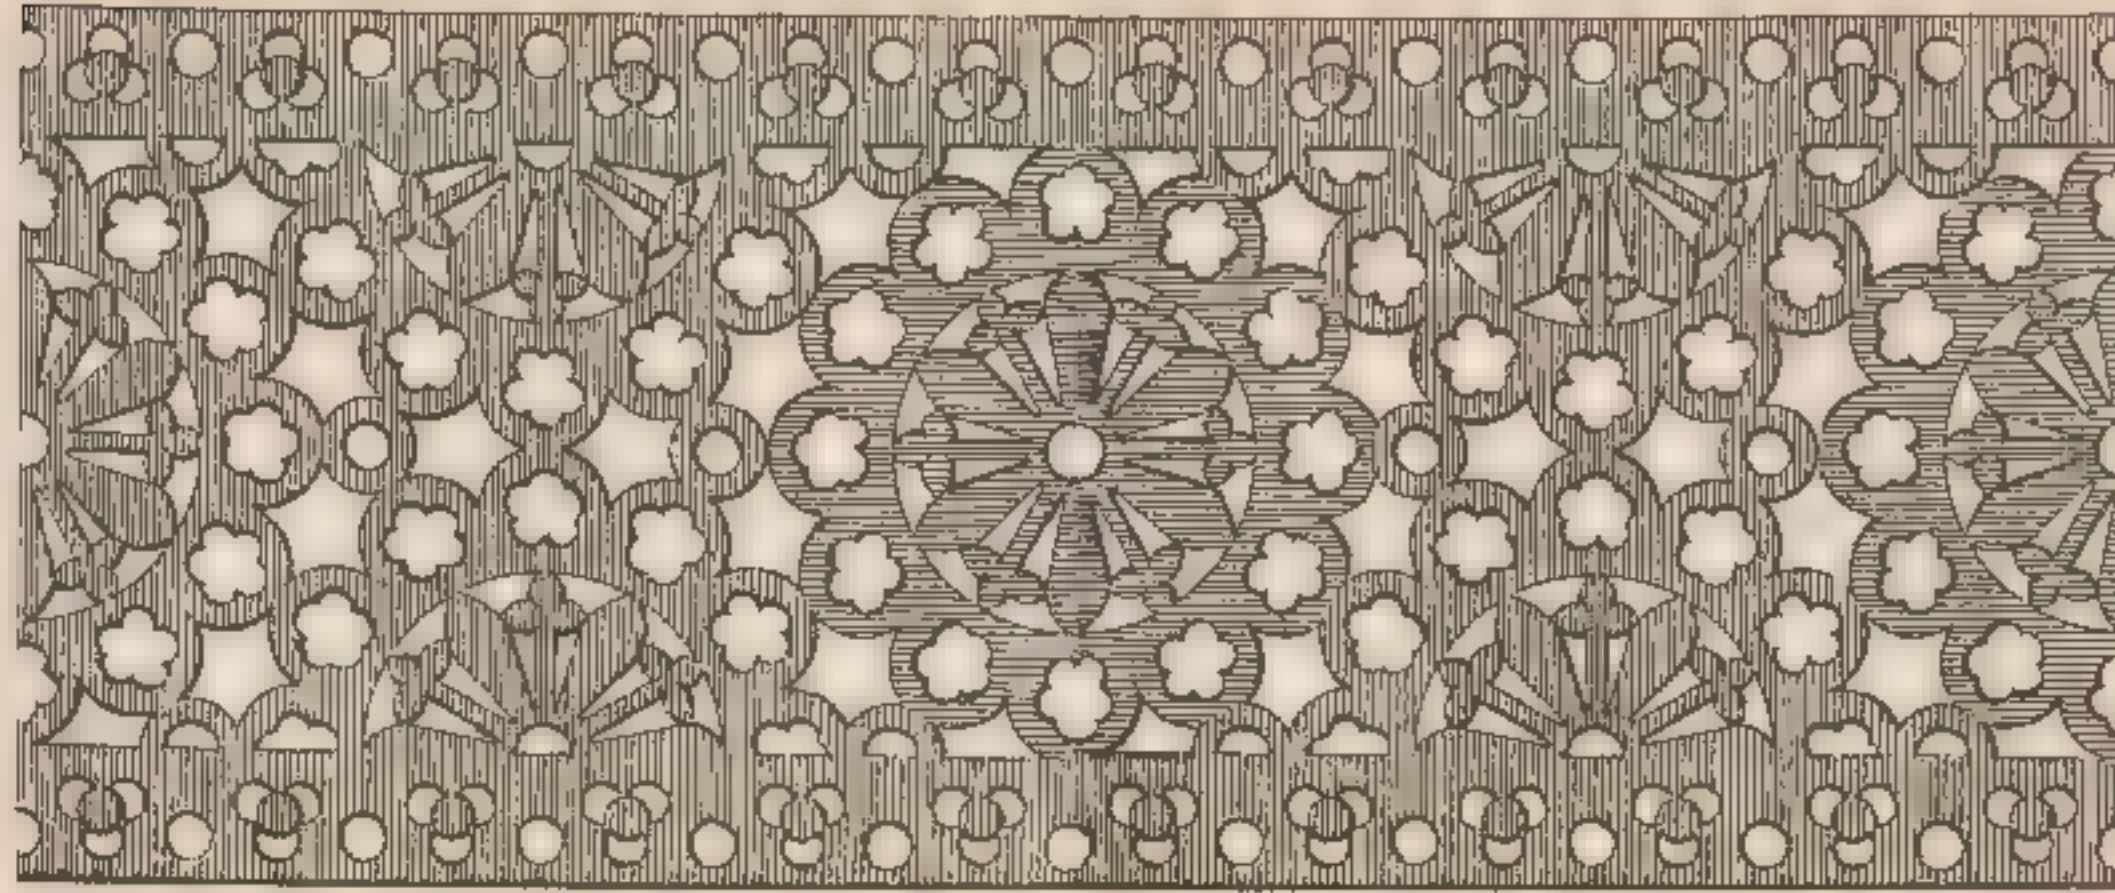

1. When Gratings are ordered, as numbered on pages 1717 to 1725 inclusive, they will be sent as Drawing, without end Borders.
2. When Gratings are wanted with Borders at one end only of each length, add the letter A (thus: No. 1 A).
3. When wanted with Borders at both ends of each length, add the letter B (thus: No. 1 B).
4. When Borders are added, an extra price will be charged, and the lengths will in each case be increased by the width of the end Borders. Thus: No. 1, 36 inches long, will be 38 inches if No. 1 A, and 40 inches if No. 1 B.
5. The full-lengths of Gratings are not in every case shown on the Drawings, but the dimensions are given in figures at each No. of the patterns we are prepared to supply.
6. All alterations in length or width are charged extra, whether altered in the patterns or in the castings. And shorter lengths than sizes stated will be charged as full lengths of pattern from which they are cut.

Nos. 1 and 2 GARDEN ROLLERS have been improved by Casting Flanges round the inside of ends; this makes them much stronger, and prevents the edges from chipping, while the outer ends being rounded off does not mark the grass.

No. 3 DOUBLE CYLINDER GARDEN ROLLER has the ends Cast in, adding strength to both the centre and outside ends of Cylinder. The joint at centre is turned and faced, the Journals bored, and Axle turned, while the ends are rounded off. They are very easy to work, and, being well fitted, no marks on walk or grass are made.

CAST IRON WINDOWS.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. State No. and size.
2. Fixing as shown, unless otherwise advised.
3. Latches and Gearing for opening windows can be had as follows :—

WINDOWS HINGED IN CENTRE.

Eyelets for fixing cord as No. 72, Page 1802.

Latch as No. 97, Page 1812.

Catch as No. 134, Page 1810.

WINDOWS HINGED AT TOP.

Sword as No. 91, Page 1809.

WINDOWS HINGED AT BOTTOM.

Eyelet for fixing cord as No. 110, Page 1816.

Sword and pulley as No. 121, Page 1813.

Eyelet for fixing cord, pulley, and side cheeks with back check, to prevent down draught, as No. 84, Page 1807.

Hopper, to prevent down draught, as No. 88, Page 1808.

Chain and balance weight as No. 124 or No. 125, Page 1813.

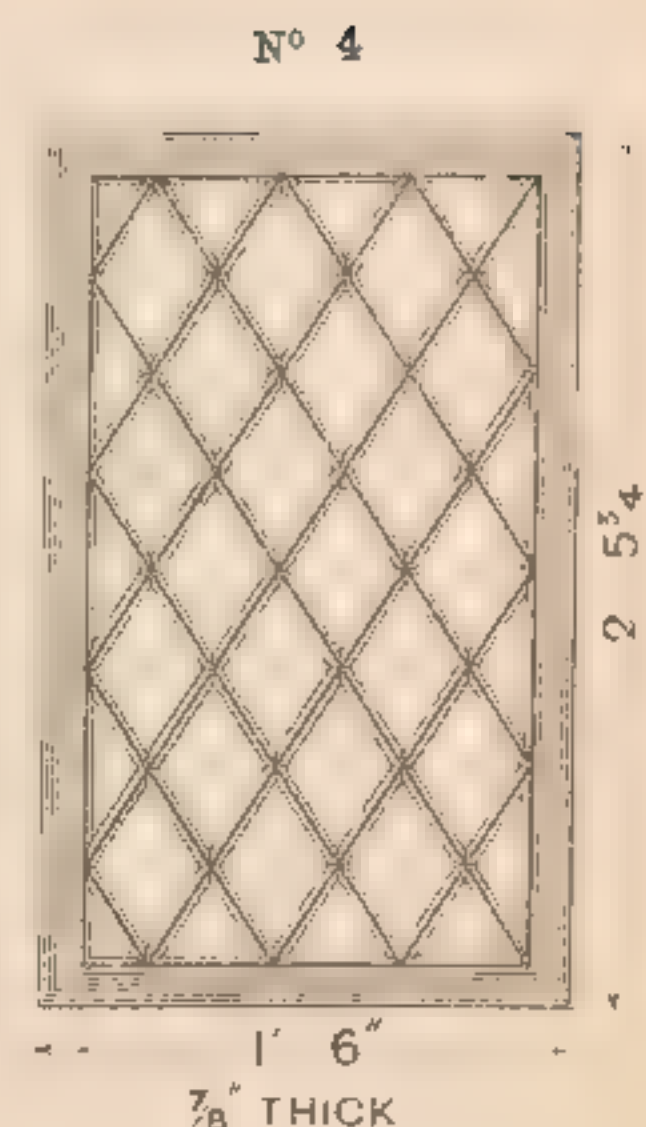

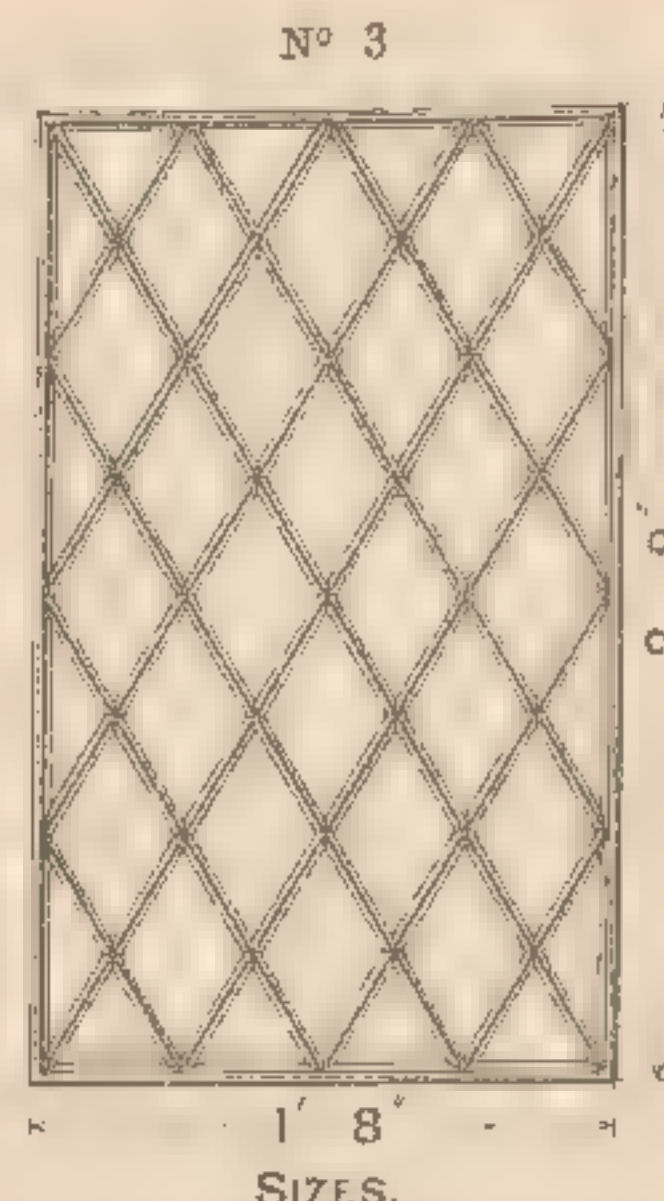

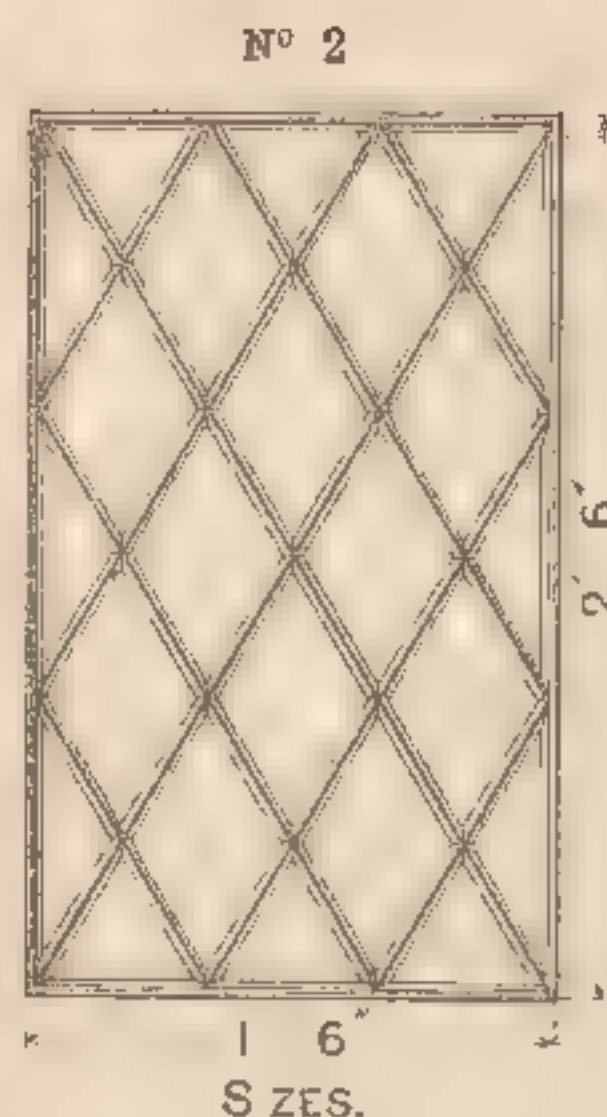

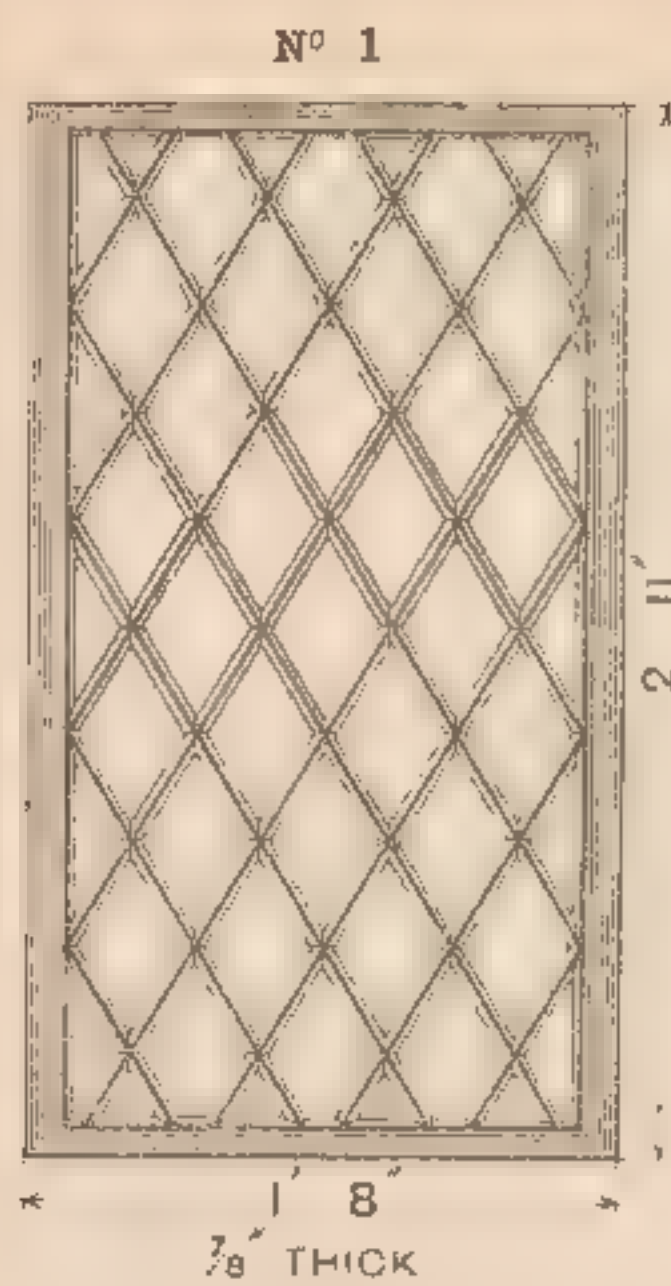

WINDOWS HINGED AT SIDE.

Latch as No. 19, Page 1803.

4. Brass pulleys where not shown *charged extra*.

FIG. 1

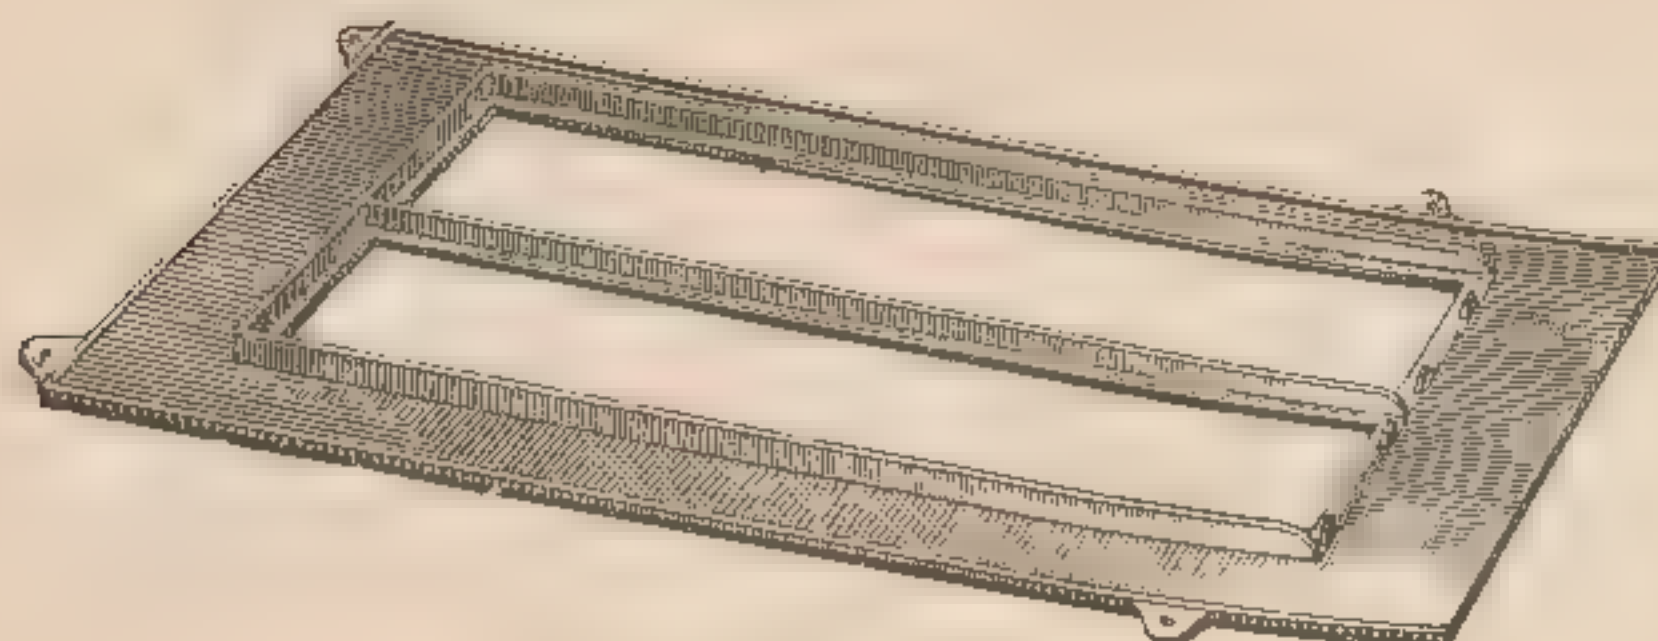

Skylights have hitherto been hinged so that the moveable frame could be easily unscrewed from the outside, and access to the inside gained without any visible disturbance.

The improvements, shown by reference to the drawings, are that the unhinging is accessible only from the underside of the FIXED frame, which is fixed to the roof, and not moveable.

Fig. 1 is a transverse section of the fixed frame as taken through the lugs to which the moveable frame is hinged. E E show how the lugs are fixed by the screws G G from the underside of the fixed frame.

This new feature in Skylights gives greater security than has been formerly attained.

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

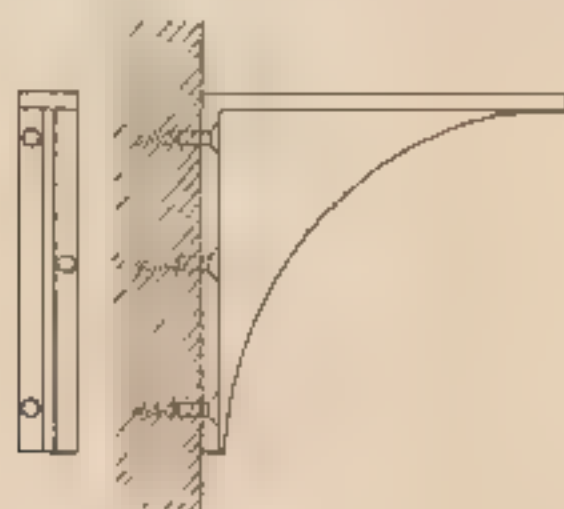

1. State Nos. and sizes.
2. Spandrils and Brackets are shown without fixing. When ordering state mode and sizes of fixing.

Small bats and lugs not *charged extra*.

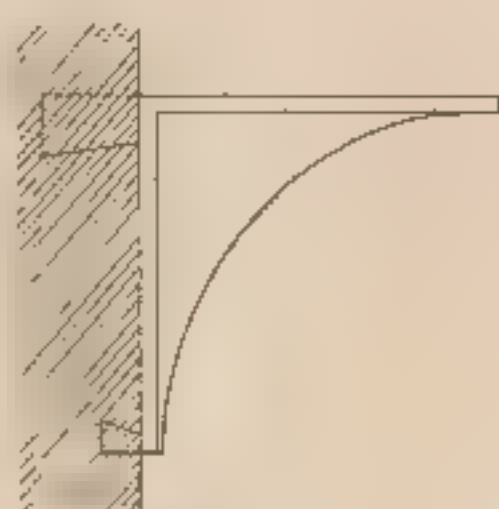

Plates with bolts and nuts for building in *charged extra*.

FOR SMALL BRACKETS.

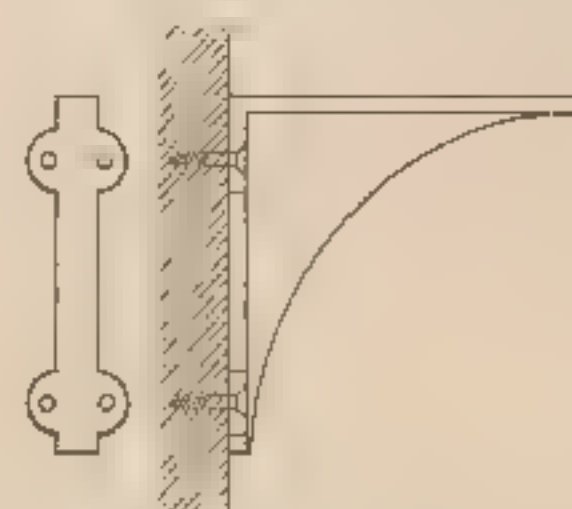

A,
FLANGE OF BRACKET FORMS FIXING
FOR SCREWING TO WOOD.

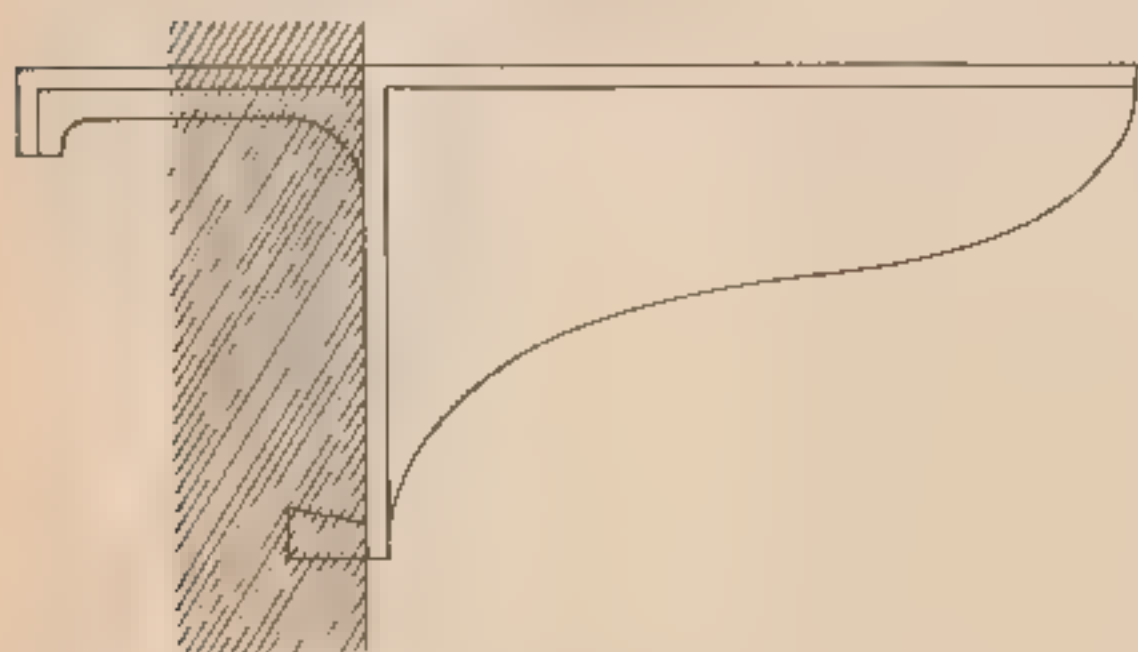

B,
BATTED TO WALL.

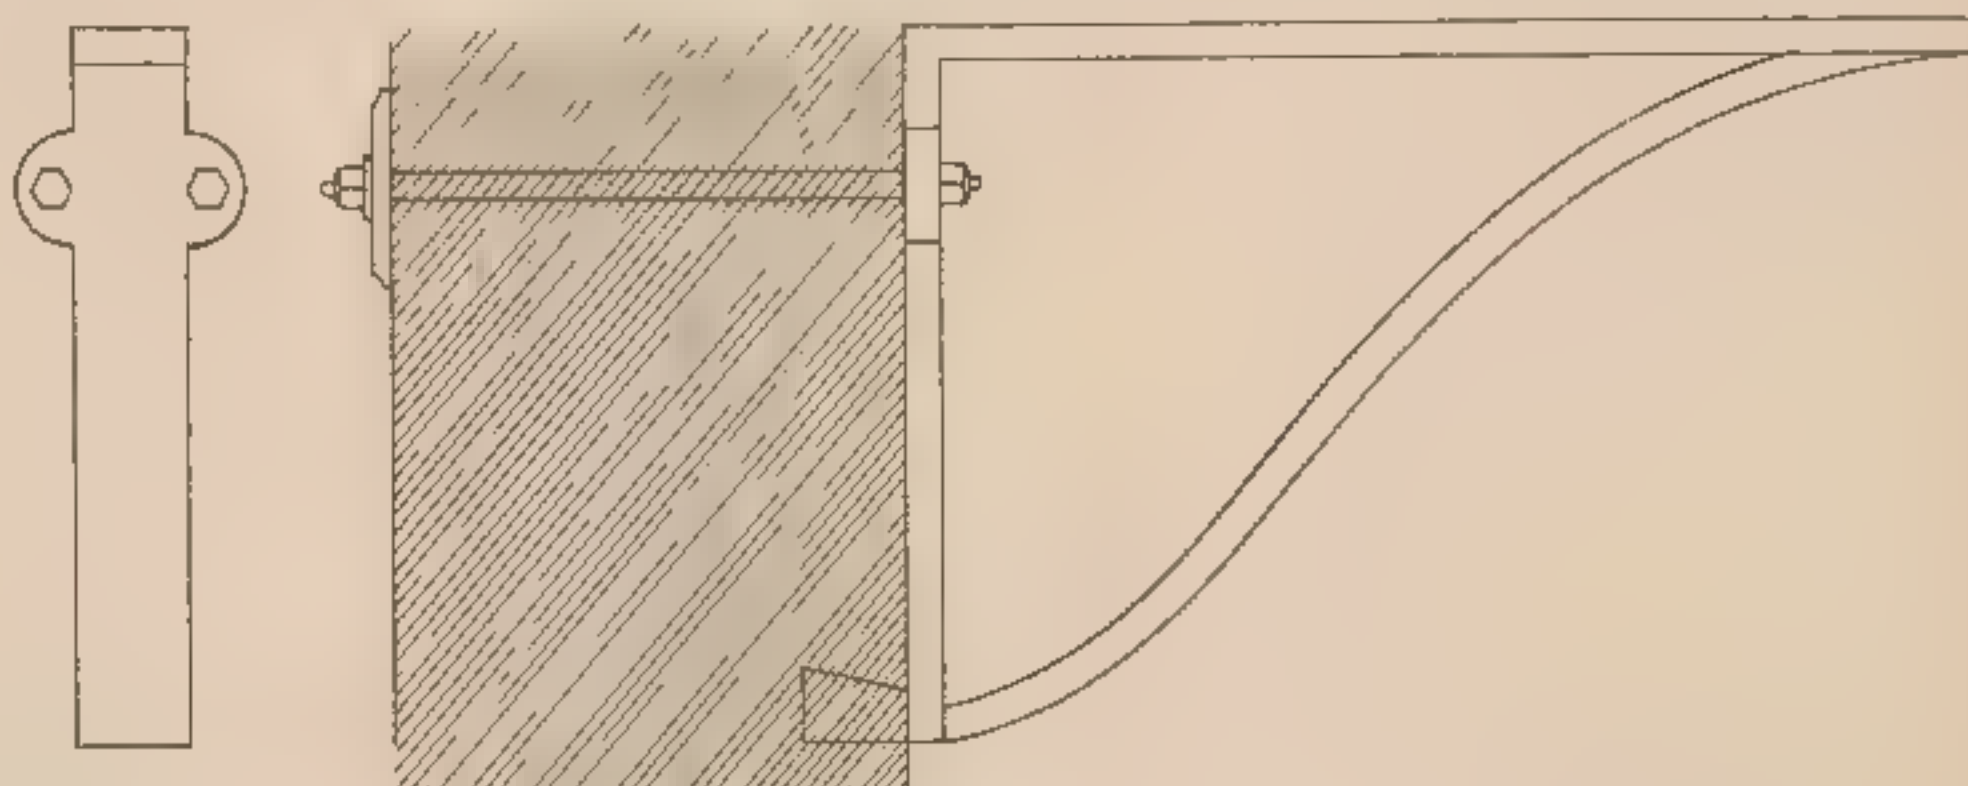

C,
SNUGS ON FLANGE FOR
SCREWING TO WOOD.

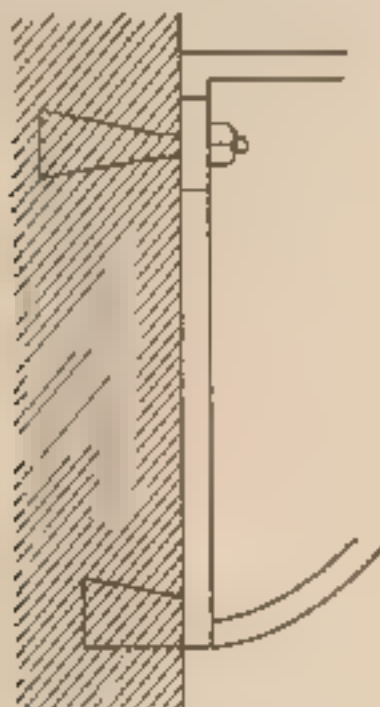

D,
TANG AT TOP AND BAT AT
BOTTOM FOR FIXING TO STONE.

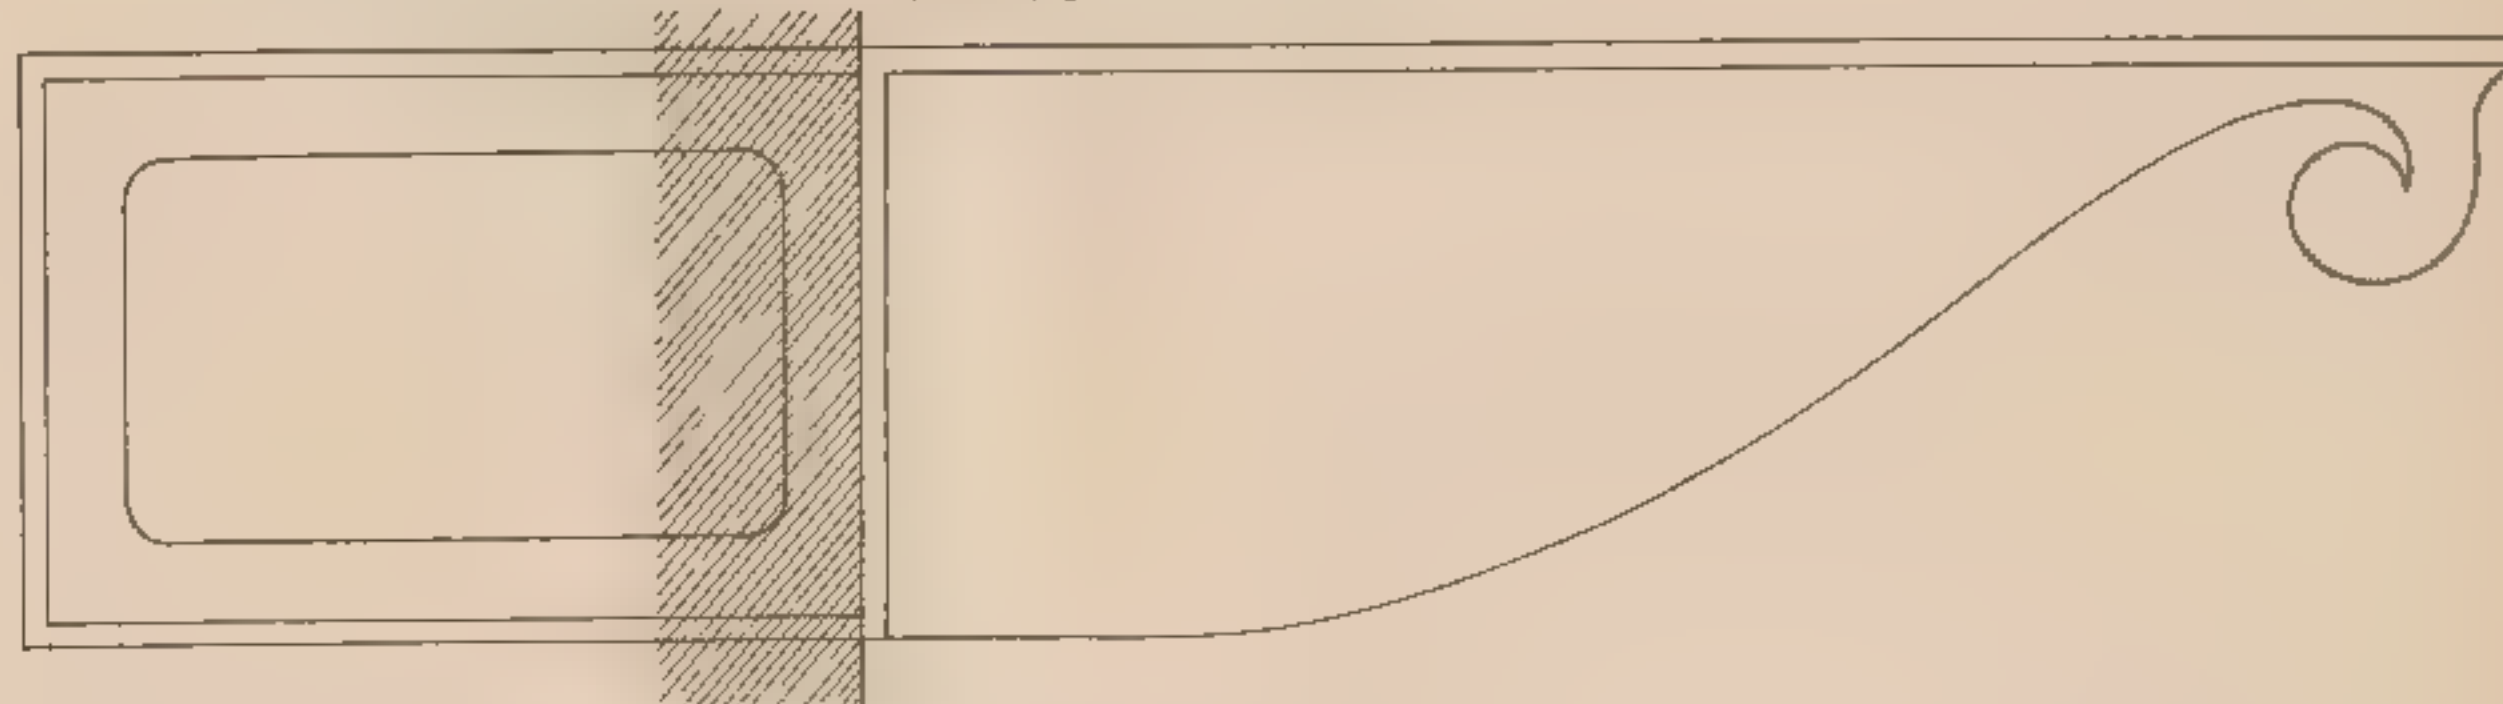

E,
SNUGS ON FLANGE FOR BOLTS TO GO THROUGH
AND BE FIXED WITH NUTS AND WASHER TO WALL,
ALSO BAT AT BOTTOM OR SNUGS, ETC., SAME AS
AT TOP.

F,
SNUGS ON FLANGE FOR BAT
BOLT TO BE FIXED IN WALL,
ALSO BAT AT BOTTOM OR
SNUGS, ETC., SAME AS AT
TOP

G,
WEB FOR BUILDING INTO WALL.

Sizes can be altered to order.

PILASTERS AND COLUMNS.

Pilasters and Columns are supplied with fixing as shown. Other modes of fixing and lengths of casting to order.

In all cases state top fixing. When not given will be sent as shown.

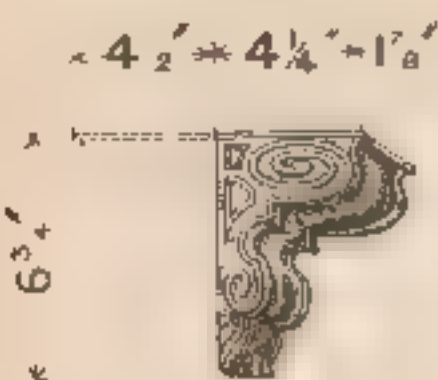

CORNICE, FRIEZE, FACE-PLATES AND BEAMS.

State No. and fixing.

SPANDRILS, BRACKETS, &c.

LAMP POSTS AND BRACKETS.

1977

Notes and Directions for guidance when ordering, by attending to which, delays in consequence of correspondence may be avoided.

1. Lamp Posts and Brackets are supplied with the modes of fixing, as shown, unless otherwise advised. Roots where not shown *charged extra*. Alterations of fixing *charged extra*.
2. Any of the Lanterns can be supplied with other Posts and Brackets than those with which they are illustrated.

For example, the No. 48 Lamp Post, a square or hexagonal Lantern might be preferred to the No. 13. The No. 91 or 92, or any other, could then be substituted.

Similarly with all others.

The Oven in this Stove is constructed with an outer gas-chamber, completely encasing the Oven, so that the gas fumes cannot enter the Cooking Chamber.

It can be set either with or without a Flue Pipe, as no noxious vapours can pass through. Pull out the valve A to heat the hot plate quickly, push in for heat to go more round Oven.

N^o 7

SPECIMEN PLATE. STEVEN'S IMPROVED LOWE'S TRAP.

THE SPECIAL ADVANTAGES ARE THE FOLLOWING:—

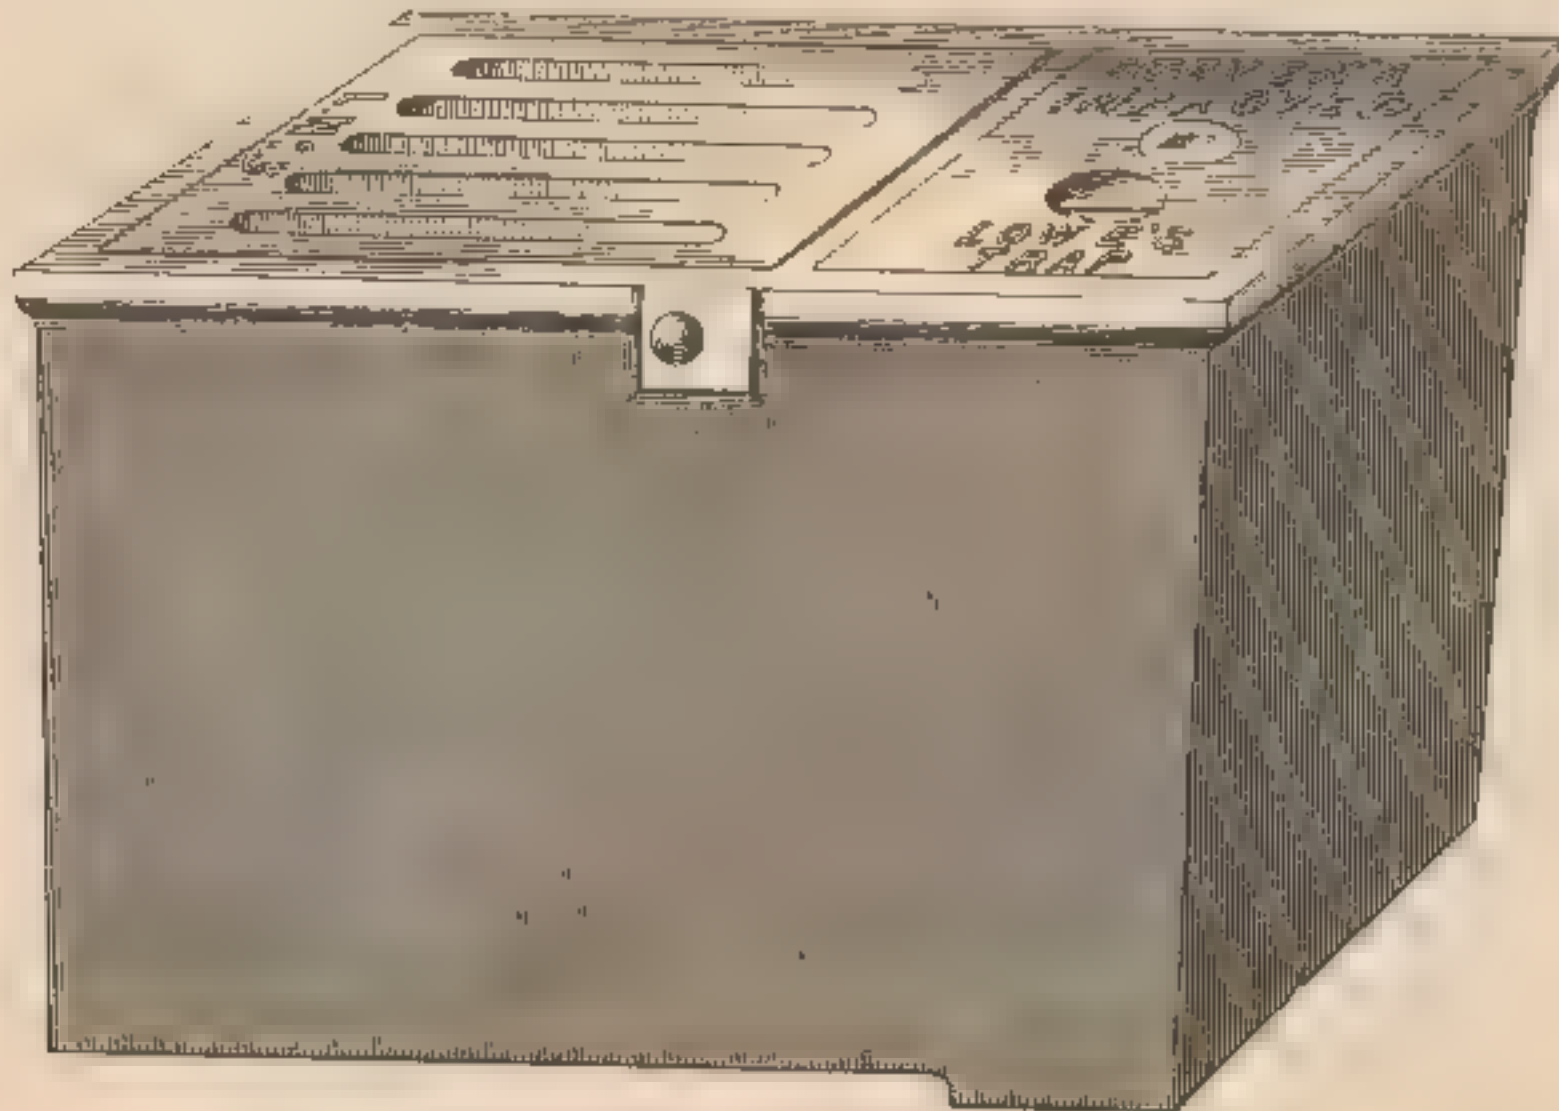

1st. The facility afforded for inspecting the outfall of Trap, and removing any accumulation of debris, and so save any disturbance of Trap or Causeway.

2d. The simplicity and effectiveness of the means of fixing and unfixing the cover over outlet.

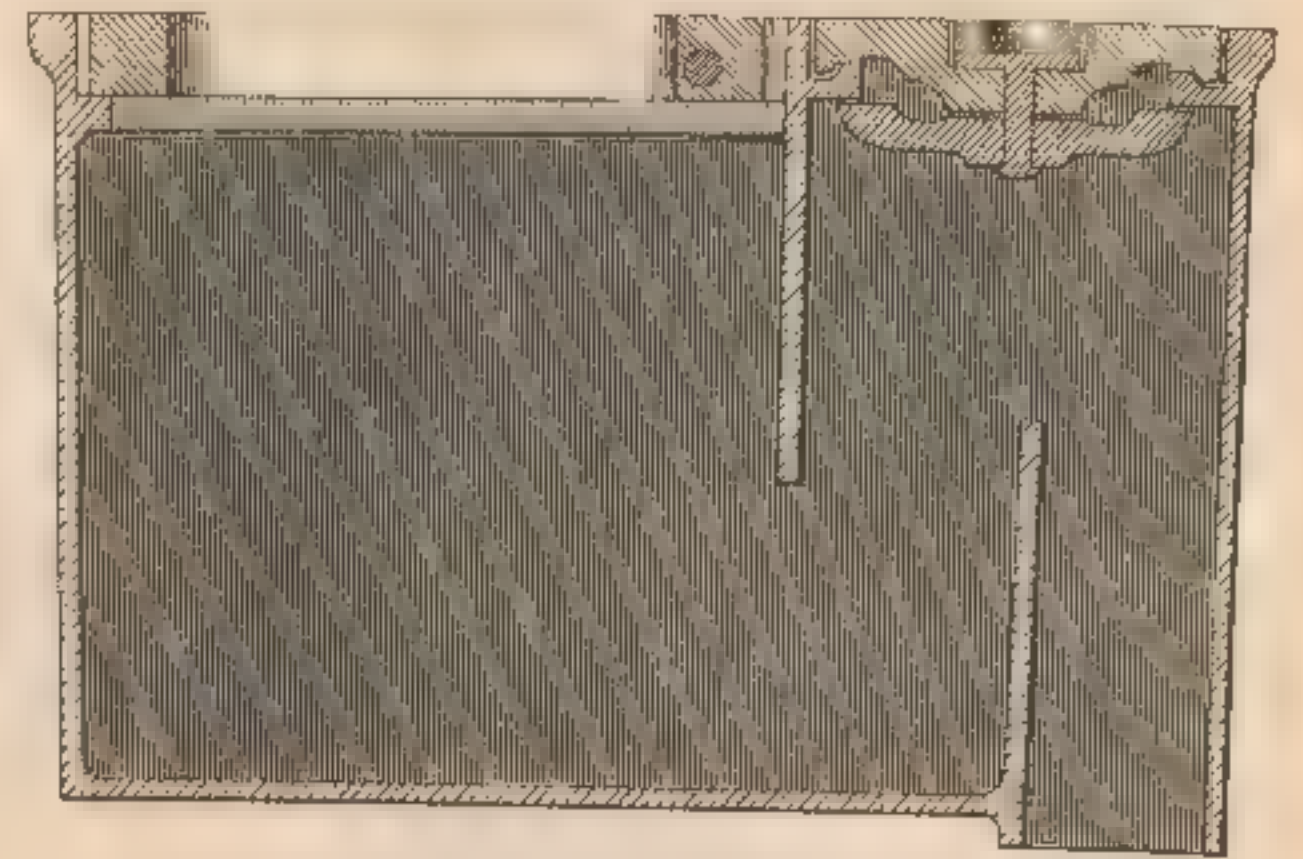

3d. The manner of the joint of cover, which is formed by means of a hollow groove in the main casting.

A projecting rim or tongue is cast on the underside of cover, and is inserted into the aforesaid groove, allowing for the joint being made with a mixture of grease and white lead, or other suitable cement, which can be easily made and unmade when required, and so prove impervious to the escape of any gas.

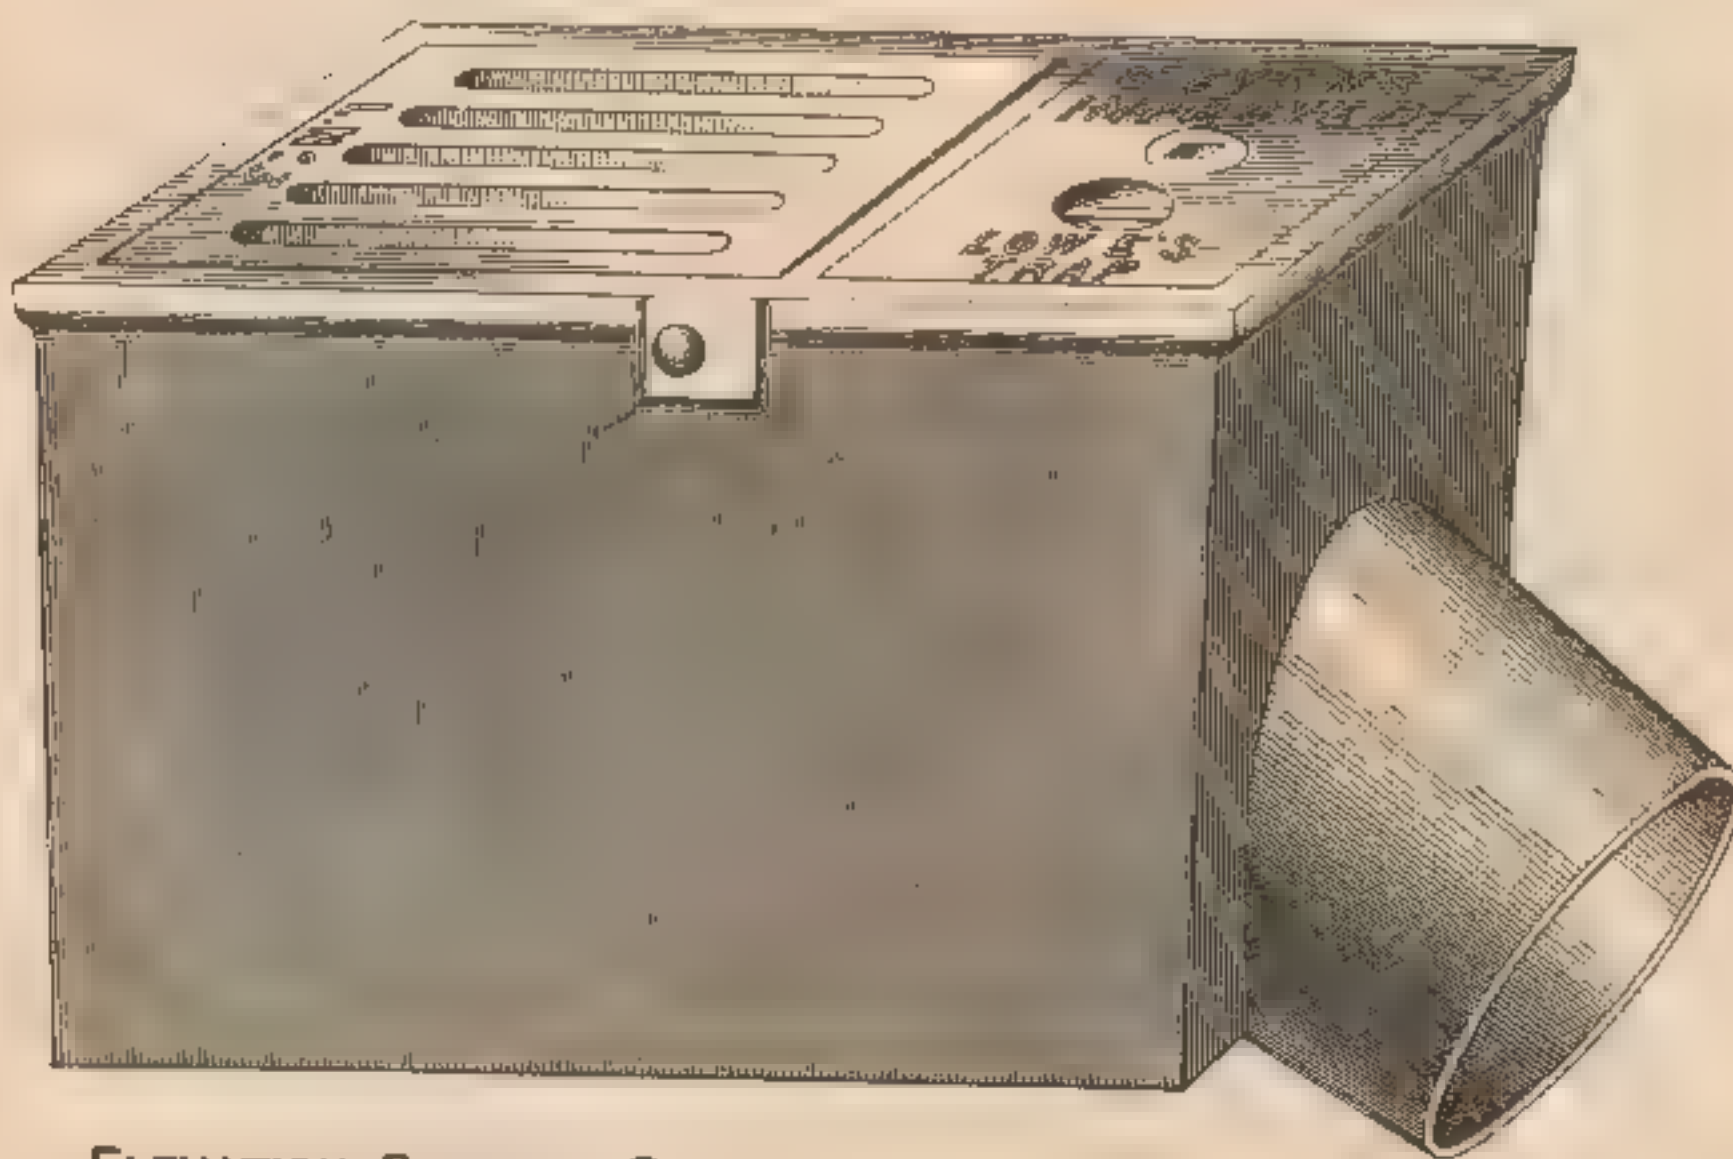

4th. The inside of casting being made in green sand insures a smooth surface, and the consequent easy passage of debris.

STEVEN'S IMPROVED GULLY TRAPS. WITH INSPECTION AND CLEANING DOOR. STREET GULLY TRAPS AND SEWER VENTILATORS SPECIMEN PLATE

No 20

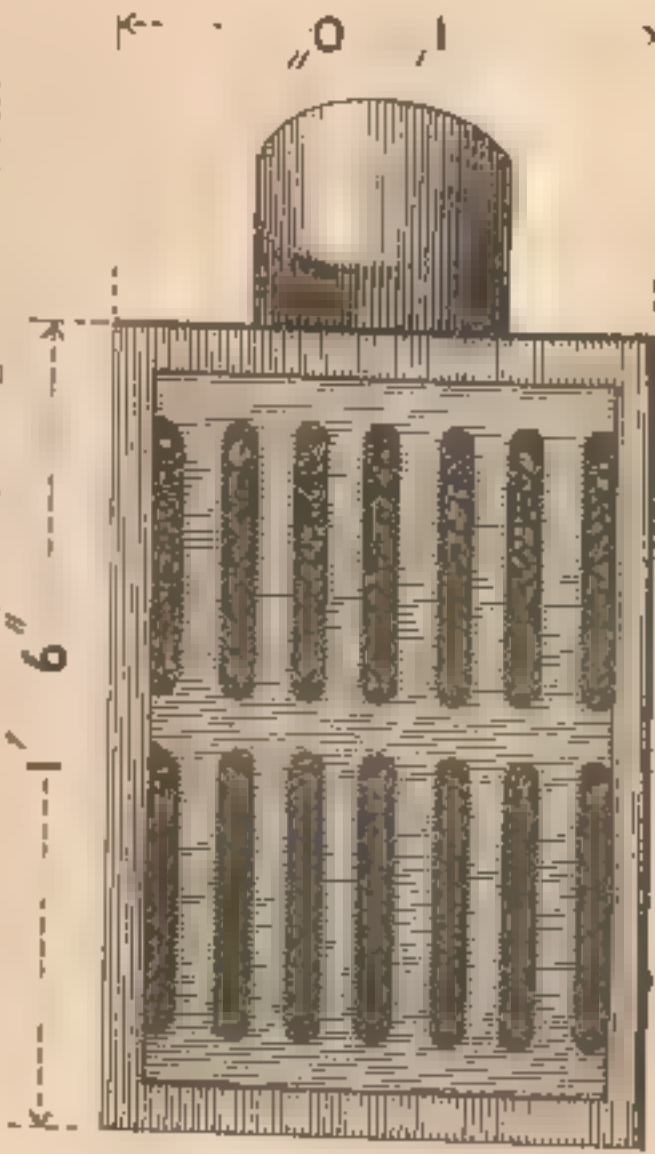

SECTION

ADVANTAGES
OF
THIS TRAP.

1st.—It forms a complete cesspool and sewer trap, and is easily placed in position
and —The inspection door over outlet allows a direct communication with the drains so as to clean away any
debris that may gather.

3rd.—The door is so fitted on the feather and groove principle that a clay or grease joint is made, and so
prevents any escape of gas from sewer.

CAST IRON BATHS

MAY BE HAD PAINTED, GALVANIZED, JAPANNED, OR ENAMELLED WITH METALLIC OR PORCELAIN ENAMEL, TO ORDER.

No 21

WITH NEW PATENT FITTINGS AND EARTHENWARE SOAP TRAY INSIDE

THE WASTE PIPE IS CAST ON BATH, THE TRAP IS REVERSIBLE, (I.E., RIGHT OR LEFT HAND, OR AT BACK,) AND STANDS ABOVE THE FLOOR LEVEL, WHICH MAKES THE BATH SELF-FIXING, THERE BEING NO CUTTING AWAY OF FLOOR FOR TRAP; THEREFORE IT HAS MERELY TO BE PLACED IN POSITION AND CONNECTED WITH WASTE PIPE.

No 23

No 22 PARALLEL

WITH ROUND ROLL ON BRIM, NO WOOD WORK REQUIRED

No 24 PARALLEL

WITH NEW REGISTERED FITTINGS AND EARTHENWARE SOAP TRAYS INSIDE,
AND WITH OVERFLOW AND WASTE PIPES SEPARATE FROM BATH
WITH ROUND ROLL ON BRIM, NO WOOD WORK REQUIRED

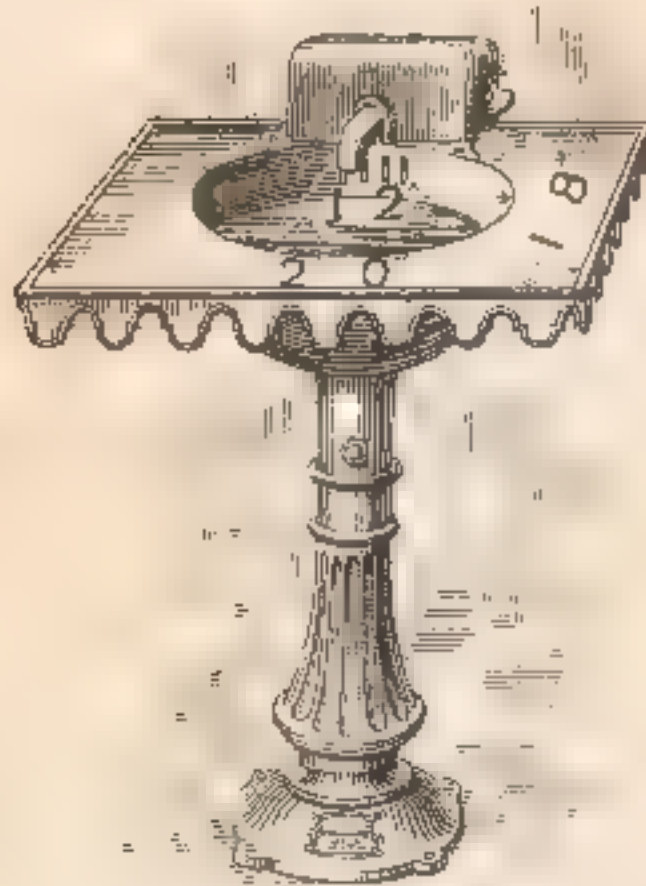

NOTE.—Our superior finished Sienna Marble or White Enamelled Baths are got up in a very artistic manner, and our process of Enamelling is of such a nature that the Enamel expands and contracts with the Iron when used with hot water. We recommend them in preference to the Porcelain Enamel.

ALL OUR BATHS CAN BE HAD WITH ANY OF OUR PLAIN OR ORNAMENTAL FEET, AND THOSE WITHOUT FITTINGS MOUNTED ON WHEELS TO ORDER.

WASH HAND BASIN RANGES, FOUNTAINS, ETC.

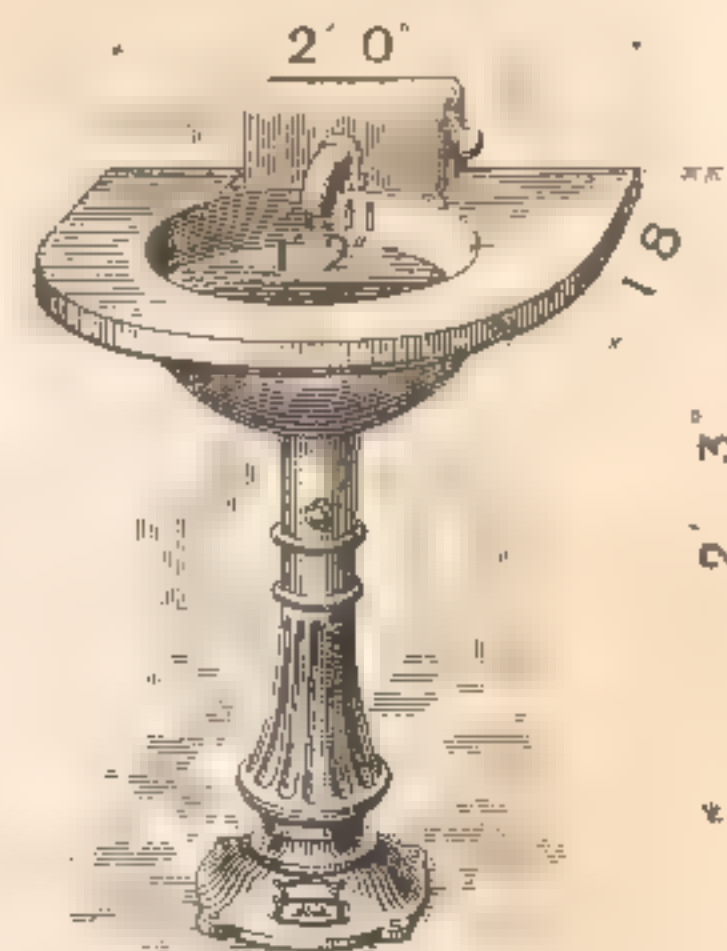

N^o. 1
FOR 1 PERSON

N^o. 2
FOR 1 PERSON

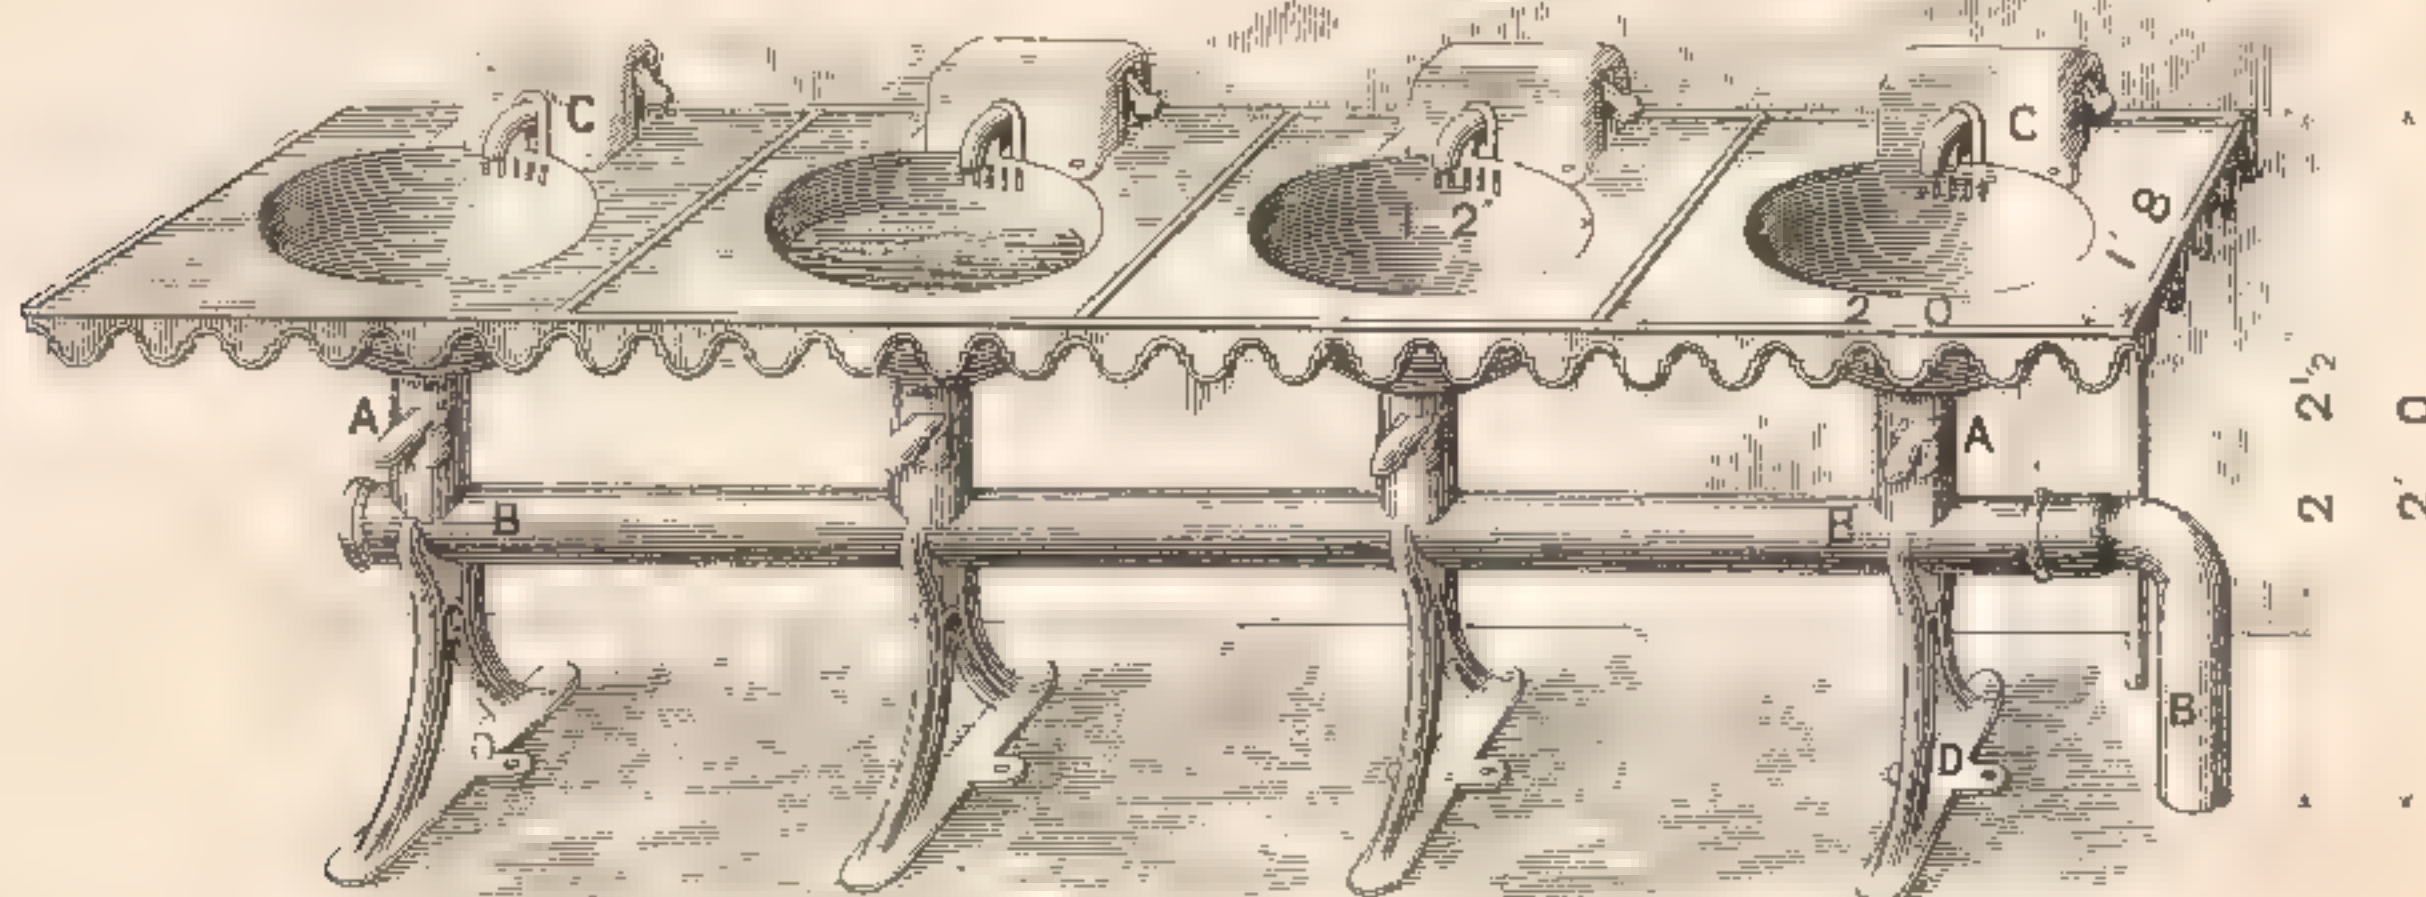

N^o. 3
FOR 1 PERSON

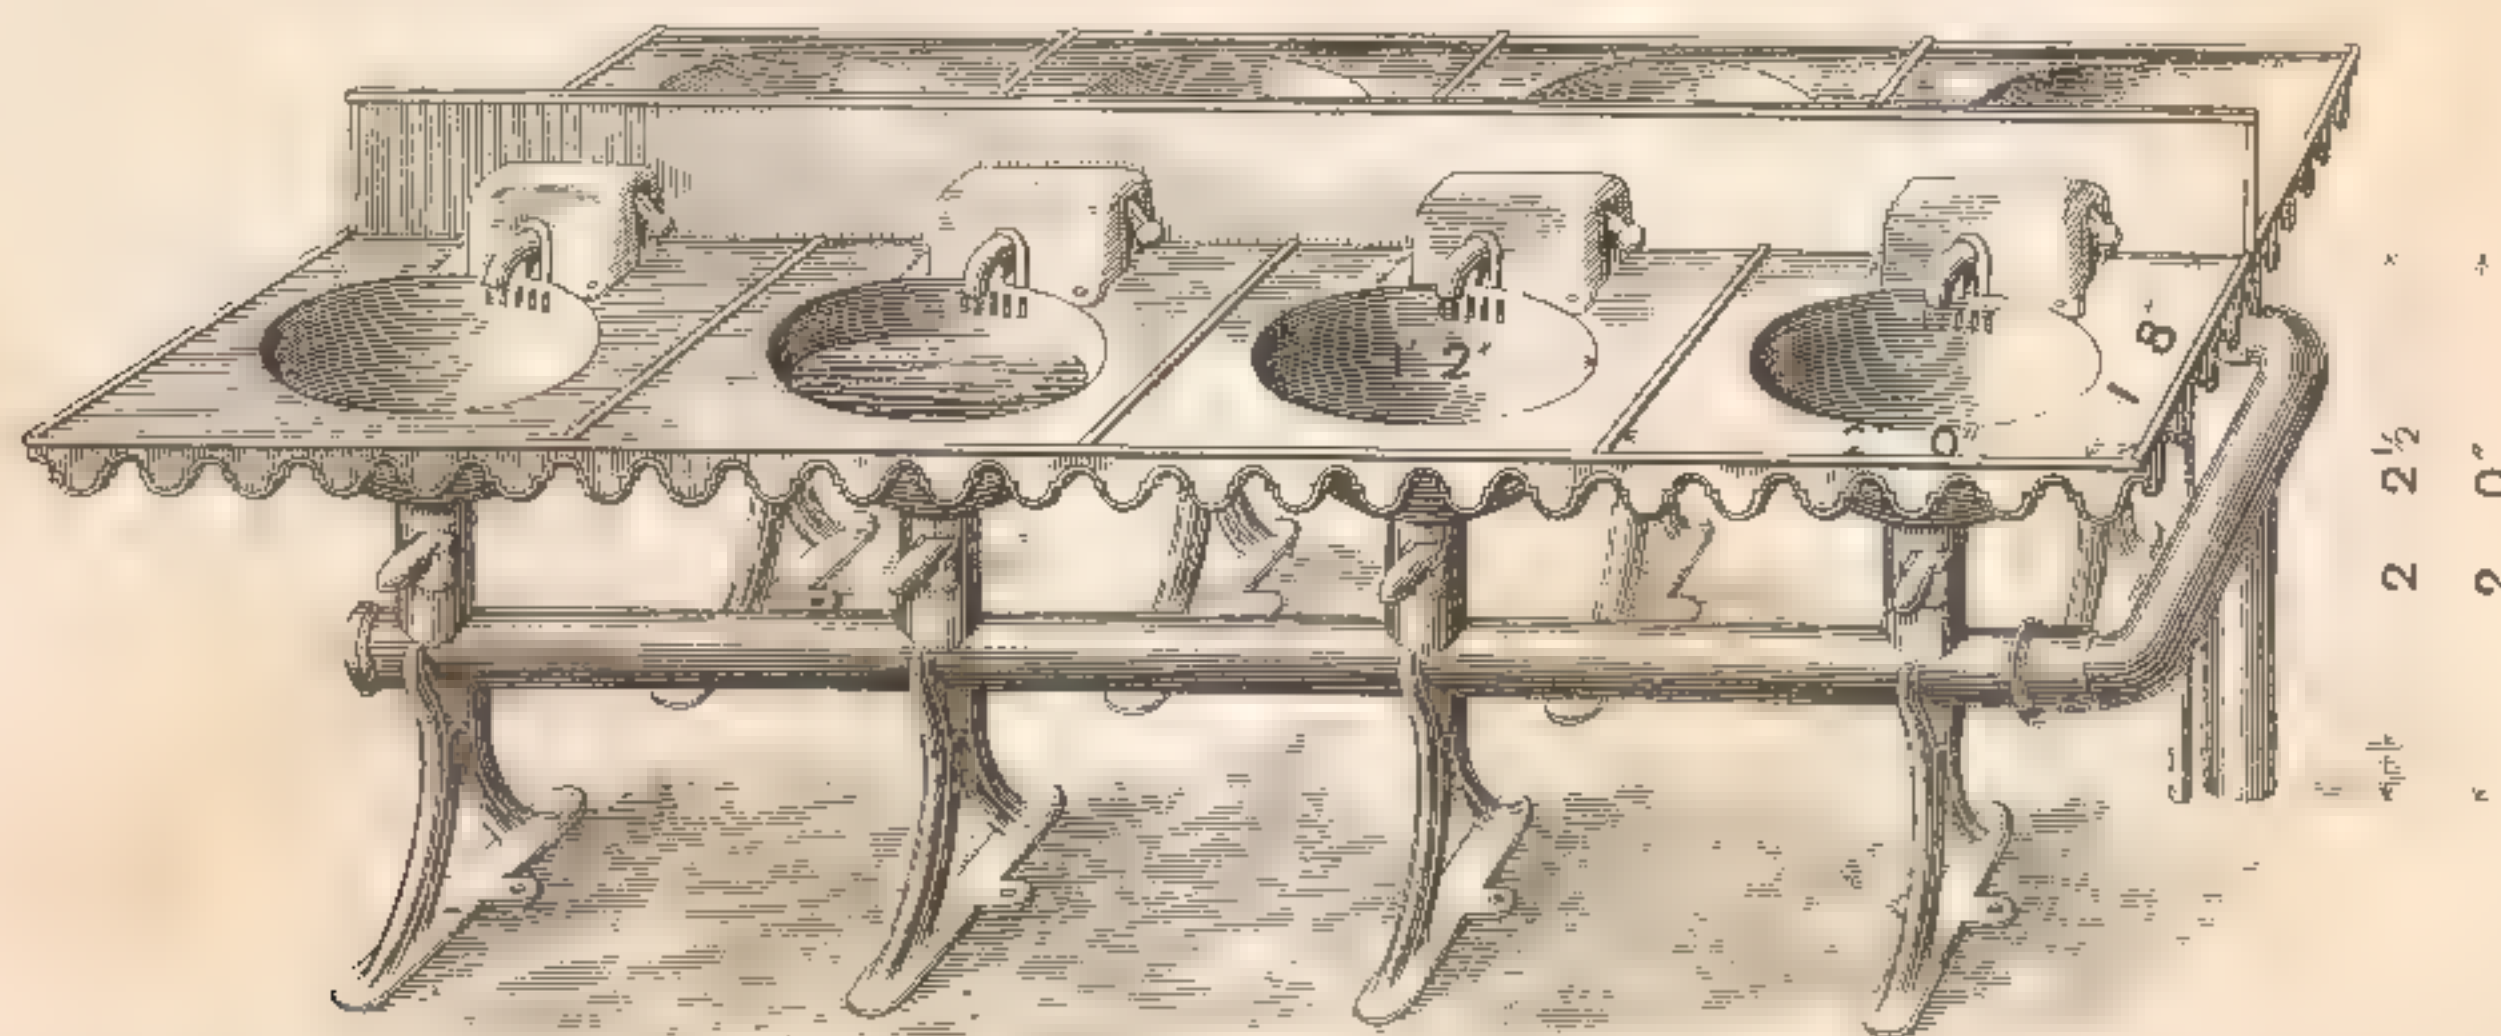

These basins are complete in themselves, being provided with Cocks, Discharge Valves, Overflows, &c. They are similar in their working arrangements to No. 4 described below.

N^o. 4
FOR 4 PERSONS.

No. 4 Wash-Hand Basin Range is made for any number of persons. Each basin is complete in itself, being provided with a Cock, Discharge Valve, Overflow, &c. The Discharge Valve of Basin is opened or shut by the lever A, the waste water passing by discharge pipe B to the sewer. The water supply pipe runs along the back, and the self-closing bib cock is protected by cover C, the whole being supported on Standards D, and fastened to wall and floor; and when fitted together, forms a very strong, compact, and satisfactory appliance.

N^o. 5
FOR 8 PERSONS.

No. 5 Double Wash-Hand Basin Range is in its main features the same as No. 4 shown above, but for many purposes it has considerable advantages, as it is suited, from its construction, to stand isolated on the floor. It can be had for any number of persons, and when fitted together and screwed to floor, it forms a very strong, compact, and satisfactory appliance.
